There are no constraints relative to any such Benchmark restraining portfolio construction.

**Management Process :** The investment manager uses its own economic analysis in accordance with a top-down approach to determine the most attractive asset types and geographical regions and, within those, the most attractive securities.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 4 Years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.
