PROSPECTUS

January 2020

Amundi Funds

A Luxembourg UCITS

CONTENTS

A WORD TO POTENTIAL INVESTORS

All Investments Involve Risk

With these sub-funds, as with most investments, future performance may differ from past performance. There is no guarantee that any sub-fund will meet its objectives or achieve any particular level of performance.

Sub-fund investments are not bank deposits. The value of your investment can go up and down, and you could lose money. No sub-fund in this prospectus is intended as a complete investment plan, nor are all sub-funds appropriate for all investors.

Before investing in any sub-fund, you should understand the risks, costs, and terms of investment of that sub-fund. You should also understand how well these characteristics align with your own financial circumstances and tolerance for investment risk.

As a potential investor, it is your responsibility to know and follow the laws and regulations that apply to you and to be aware of the potential tax consequences of your investment. We recommend that every investor consult an investment adviser, legal adviser and tax adviser before investing.

Note that any differences among portfolio securities currencies, share class currencies, and your home currency will expose you to currency risk. In addition, if your home currency is different from the currency in which the share class you own reports its performance, the performance you experience as an investor could be substantially different from the published performance of the share class.

Who Can Invest in These Sub-funds

Distributing this prospectus, offering these shares for sale, or investing in these shares is legal only where the shares are registered for public sale or where sale is not prohibited by local law or regulation. This prospectus is not an offer or solicitation in any jurisdiction, or to any investor, where such a solicitation is not legally permitted.

These shares are not registered with the US Securities and Exchange Commission or any other US entity, federal or otherwise. Therefore, unless the SICAV is satisfied that it would not constitute a violation of US securities laws, these shares are not available to, or for the benefit of, US persons.

For more information on restrictions on share ownership, or to request board approval to invest in a restricted class, contact us (see page 172).

Which Information to Rely On

In deciding whether or not to invest in a sub-fund, you should look at this prospectus, the relevant Key Investor Information Document (KIID), the application form, and the sub-fund's most recent annual report. These documents must all be distributed together (along with any more recent semi-annual report, if published), and this prospectus is not valid without the other documents. By buying shares in any of these sub-funds, you are considered to have accepted the terms described in these documents.

Together, all these documents contain the only approved information about the sub-funds and the SICAV. The board is not liable for any statements or information about the sub-funds or the SICAV that is not contained in these documents. In case of any inconsistency in translations of this prospectus, the English version will prevail.

Definitions of certain terms used in this prospectus appear on page 179

SUB-FUND DESCRIPTIONS

Introduction to the Sub-Funds

All of the sub-funds described here are part of Amundi Funds, a SICAV that functions as an umbrella structure. The SICAV exists to offer investors a range of sub-funds with different objectives and strategies, and to manage the assets of these sub-funds for the benefit of investors.

For each sub-fund, the specific investment objectives and the main securities it may invest in, along with other key characteristics, are described in this section. In addition, all sub-funds are subject to the general investment policies and restrictions that begin on page 148.

The board of the SICAV has overall responsibility for the SICAV's business operations and its investment activities, including the investment activities of all of the sub-funds. The board has delegated the day-to-day management of the sub-funds to the Management Company, which in turn has delegated some of its responsibilities to a number of investment managers and other service providers.

The board retains supervisory approval and control over the Management Company. More information about the SICAV, the board, the Management Company and the service providers begins on page 172.

For information on fees and expenses you may have to pay in connection with your investment, consult the following:

- Maximum fees for purchase, switching and redeeming shares: this section (main classes) and "Investing in the Sub-funds" section (all families of classes).
- Maximum annual fees deducted from your investment: this section (main classes).
- Recent actual expenses: the applicable KIID or the SICAV's most recent shareholder report.
- Fees for currency conversions, bank transactions, and investment advice: your financial advisor, the transfer agent (page 178) or other service providers, as applicable.

Euroland Equity

Objective and Investment Policy

Objective
Seeks to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests at least 75% of its assets in equities of companies that are based in, or do most of their business in EU member states that use the euro as their national currency.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives
The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities and and foreign exchange).

Base currency EUR.

Management Process

The investment manager uses a combination of overall market data and fundamental analysis of individual issuers to identify equities with superior long-term prospects

Investment Manager Amundi Ireland Limited

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Euroland Equity Small Cap

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI EMU Small Cap Index over the recommended holding period.

Investments

The sub-fund invests mainly in small capitalisation equities in the Eurozone.

Specifically, the sub-fund invests at least 75% of net assets in equities of companies that are headquartered and listed in the Eurozone, with a minimum of 51% of net assets in equities which have a market capitalisation below the maximum market capitalication of the benchmark. Investments may be extended to other European Union member states, depending on the expectations regarding which countries may subsequently become part of the Eurozone.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.

Base currency EUR.

Management Process

The investment team selects equities based on fundamental analysis (bottom-up), constructing a concentrated portfolio that consists of those securities about which the investment team has conviction.

Investment Manager Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

For a complete list of share classes available, go to www.amundi.lu/amundi-funds

European Equity Green Impact

Objective and Investment Policy

Objective

To achieve capital growth the recommended holding period. Specifically, the sub-fund invests as a feeder fund in Amundi Valeurs Durables (master fund).

Investments

The master fund invests mainly in European equities.

Specifically, the sub-fund invests at least 85% of net assets in units of the master fund (OR class). The sub-fund may invest up to 15% in deposits and derivatives that are used for hedging only.

The master fund

Amundi Valeurs Durables is an FCP that is constituted under French law and qualifies as a master fund under Directive 2009/65/EC.

The master fund invests at least 75% of net assets in equities of companies that are headquartered, or do substantial business, in Europe, that derive a large portion of revenue from environmental activities, and that perform well on extra-financial ESG criteria (environment, social and governance).

The master fund expects to have an equity exposure of between 75% and 120%. There are no market capitalisation constraints for these investments.

While complying with the above policies, the master fund may also invest in investment-grade bonds and convertible bonds, money market instruments and deposits, and up to 10% of net assets in UCITS/UCIs.

The master fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit and equities). The master fund may enter into temporary acquisitions and sales of securities (repurchase and reverse repurchase agreements).The master fund is not managed in consideration of any index though its performance is compared to the MSCI Europe index.

Base currency (master fund and feeder fund) EUR.

Management Process

The master fund's investment team analyses about 100 European equities applying a SRI (socially responsible investment) filter, among which they select companies that are active in environmental activities (energy efficiency, renewable energies, water and waste management) well evaluated on extra-financial ESG criteria (environment, social and governance) and exclude companies which produce energy from fossil fuels or nuclear power or are involved in the production or sale of controversial weapons. The investment team uses an optimisation process to achieve the desired diversification, number of securities, risk profile and liquidity.

Investment Manager (master fund and feeder fund) Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

European Equity Sustainable Income

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI Europe Index over the recommended holding period.

Investments

The Sub-Fund invests mainly in a broad range of equities of companies that are based in, or do most of their business in Europe and which offers prospects of paying dividends.

The Sub-Fund aims for an improved environmental footprint and sustainability profile compared to the MSCI Europe index by integrating ESG (environmental, social and corporate governance) factors. There is no currency constraint on these investments.

While complying with the above policies the Sub-Fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments, deposits and up to 10% of its assets in other UCITS/UCIs.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency EUR

Management Process

The investment manager actively manages the sub-fund's portfolio by reference to the benchmark using a combination of overall market data and fundamental analysis of individual issuers to identify equities that offer above-average dividend prospects as well as the potential to rise in value over time.

European Equity Small Cap

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests mainly in a broad range of equities of small cap companies that are based in, or do most of their business in Europe. The Sub-Fund defines small cap companies as those that, at the time of purchase, are within the market capitalization range of the MSCI Europe Small Companies Index. The Sub-Fund will invest at least 75% in equities issued by companies having their head office in the EU.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency EUR.

Management Process

The investment manager uses fundamental analysis of individual issuers to identify equities with superior long- term prospects.

Investment Manager Amundi SGR S.p.A.

Equity Japan Target

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the Topix (RI) Index over the recommended holding period.

Investments

The sub-fund invests mainly in Japanese equities.

Specifically, the sub-fund invests at least 67% of assets in equities that are listed on a regulated market in Japan and are issued by companies that are headquartered, or do substantial business, in Japan.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.

Base currency JPY.

Management Process

The investment team actively manages the sub-fund's portfolio by using a stock-picking model (bottom-up), which aims to select the most attractive equities of cash-rich companies having undervalued assets or growth potential or being in a turnaround situation.

Investment Manager Amundi Japan.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Pioneer US Equity Mid Cap Value

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period

Investments

The Sub-Fund invests mainly in a broad range of equities of mid-cap companies that are based in, or do most of their business in, the U.S.A. The Sub-Fund may invest up to 25% of its assets, at the time of purchase, in securities of non-U.S. companies.

The Sub-Fund defines mid cap companies as those that, at the time of purchase, are within the market capitalization range of the Russell Midcap Value Index (with the upper end of that range definable either as its current value or its average value for the prior 3-year period). The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency EUR.

Management Process

The investment manager uses a "value" style of investing, looking for companies whose stock prices are low relative to other measures of value or business potential.

Investment Manager Amundi Pioneer Asset Management, Inc.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Polen Capital Global Growth

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI World All Countries (ACWI) (Net dividend) Index over the recommended holding period.

Investments

The sub-fund invests mainly in equities of large capitalisation companies around the world.

Specifically, the sub-fund invests at least 51% of net assets in equities of companies that have a wide range of market capitalisation of at least USD 4 billion.

The sub-fund may invest up to 30% of net assets in equities of companies domicilied in emerging markets. There are no currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The sub-fund may use derivatives for hedging

Base currency USD.

Management Process

The investment team selects equities based on a disciplined approach to valuation (bottom-up), constructing a concentrated portfolio that consists of those securities about which the investment team has conviction.

Investment Manager Polen Capital Management LLC

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Top European Players

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests mainly in equities of medium and large cap companies that are based or do most of their business in Europe. The Sub-Fund invests at least 75% of its assets in equities issued by companies headquartered in the EU. While the Sub-Fund may invest in any area of the economy, at any given time its holdings may be focused on a relatively small number of companies.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency EUR.

Management Process

The investment manager uses fundamental analysis of individual issuers to identify equities with superior long- term prospects.

US Pioneer Fund

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests mainly in a broad range of equities of companies that are based in, or do most of their business in, the U.S.A. The Sub-Fund may invest up to 20% of its assets, at the time of purchase, in securities of non-U.S. companies.

The Sub-Fund aims for an improved environmental footprint and sustainability profile compared to the benchmark index by integrating ESG (environmental,social and corporate governance) factors.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency EUR

Management Process

Using proprietary methods that have been used and refined since 1928, the investment manager analyses individual issuers to identify equities with the potential to deliver an increase in value over time, then holds these equities until expectations are realised.

Investment Manager Amundi Pioneer Asset Management, Inc.

Techniques and instruments

Wells Fargo US Equity Mid Cap

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI US Mid Cap Value Index (MSCI USA Mid Cap Index until 29 Mai 2020) over the recommended holding period.

Investments

The sub-fund invests mainly in medium capitalisation equities in the United States.

Specifically, the sub-fund invests at least 85% of assets in equities of companies that:

- are headquartered, or do substantial business, in the United States,

- have a market capitalisation within the range of the MSCI USA Mid Cap Value index,

- are listed in the United States or in one of the OECD countries.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency USD.

Management Process

The investment team actively manages the sub-fund's portfolio by using a fundamental analysis (bottom-up) that aims to select the most attractive equities of cash rich companies having undervalued assets or growth potential and limited downside risk..

Investment Manager Wells Capital Management Incorporated.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Asia Equity Concentrated

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI AC Asia ex Japan Index over the recommended holding period.

Investments

The sub-fund invests mainly in Asian equities (excluding Japan).

Specifically, the sub-fund invests at least 67% of assets in equities and equity-linked instruments of companies that are headquartered, or do substantial business, in Asia (excluding Japan and including China). Investments in Chinese equities can be made either through authorised markets in Hong Kong or through the Stock Connect. The sub-fund may invest up to 10% of net assets in China A shares and B shares (combined) There are no currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The sub-fund may use derivatives for hedging and efficient portfolio management.

Base currency USD.

Management Process

The investment team actively manages the sub-fund's concentrated portfolio by combining top-down and bottom-up strategies: geographical allocation and equity selection based on growth potential and valuation.

Investment Manager Amundi (UK) Limited.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

China Equity

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests mainly in equities of companies based in, or that do most of their business in, the People's Republic of China, and that are listed on stock markets there or in Hong Kong.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

The Sub-Fund may from time to time invest and have direct access to China A Shares via Stock Connect with an exposure of up to 20% of its net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency EUR

Management Process

The investment manager uses a combination of overall market data and fundamental analysis of individual issuers to identify equities with superior long-term prospects.

Investment Manager Amundi (UK) Limited.

Techniques and instruments

Equity ASEAN

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI South East Asia Index over the recommended holding period.

Investments

The sub-fund invests mainly in equities of companies in countries that are members of the Association of the Southeast Asian Nations (ASEAN).

Specifically, the sub-fund invests at least 67% of assets in equities of companies that are headquartered, or do substantial business, in ASEAN member countries. The sub-fund may invest in equity-linked notes (including P-Notes) for the purpose of efficient portfolio management. There are no currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The sub-fund may use derivatives for hedging and efficient portfolio management.

Base currency USD.

Management Process

The investment team actively manages the sub-fund's portfolio by using a stock-picking model (bottom-up) that aims to select the most attractive equities based on growth potential and valuation.

Investment Manager Amundi Hong Kong Ltd.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Latin America Equity

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI EM Latin America Index over the recommended holding period.

Investments

The sub-fund invests mainly in Latin America equities.

Specifically, the equity exposure of the sub-fund usually ranges between 90% and 100% of its total assets.

In all circumstances, the sub-fund has to invest at least 67% of assets in equities and equity-linked instruments of companies that are headquartered, or do substantial business, in Latin America. The sub-fund may invest in P-Notes for the purpose of efficient portfolio management. There are no currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The sub-fund may use derivatives for hedging and efficient portfolio management.

Base currency USD.

Management Process

The investment team actively manages the sub-fund's portfolio by combining top-down and bottom-up strategies: geographical allocation, sector allocation within each country and equity selection based on growth potential and valuation. Economic, political and valuations analysis are carried-out by the Investment Manager in order to decide country and sector allocation. Analysis and valuation models had elaborated to assess upside potential and risks of each investment case in order to choose the stocks which are selected in the portfolio. For the construction of the portfolio, sizable deviations versus the benchmark – which serves as reference – are usually taken. Amplitude of deviations vary depending on the degree of conviction of the investment manager, insofar where it may invest in equites or countries not represented in the benchmark. This may result for instance in an over/underweight of a country or a sector by more than 10% or an equity by up to 5% of the net assets.

Investors should note however that, although the objective of the sub-fund is to outperform its given reference benchmark in adopting an active management process, at certain points in time, the sub-fund may only achieve a return and/or expose to a portfolio close and very similar to the relevant benchmark due to a variety of circumstances that may among other include:

- in terms of stock, sector and country selection, positive contributions to the performance of the sub-fund by some positioning may face other deviations versus the benchmark that generate underperformance, having the effect of cancelling each other,
- the correlation between countries (which are mostly commodity exporters) and stocks, all well as lack of depth for some markets and sectors, may sometimes limit opportunities in terms of stock-picking in the region,
- the chosen degree of risk exposure may vary depending on market or political circumstances/environment, the region being particularly exposed to election risks. For instance, faced with an event where both a large market upside and a large market downside are equally possible, the investment Manager may decide to limit the degree of risk taken around this particular event and get closer to the benchmark,
- liquidity requirement may force to hold some of the large stocks that are well represented in the benchmark.

Japan Equity Engagement

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period.

Investments

The sub-fund invests mainly in a broad range of equities of companies that are based in or do most of their business in Japan.

The sub-fund may invest up to 10% of its assets in other UCITS and UCIs.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency JPY.

Management Process

The investment manager uses fundamental analysis, which aims to select equities of companies with a healthy balance sheet, attractive returns on invested capital with superior growth potential. The investment manager engages with the management of those companies in order to improve capital allocation and ESG (environmental, social and governance) practices..

New Silk Road

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period.

Investments

The sub-fund invests mainly in a broad range of equities of companies that are based in or do most of their business in emerging countries and directly or indirectly benefit from the Belt and Road Initiative ("BRI") of the People's Republic of China. The BRI aims to improve land and sea infrastructure and pathways for connectivity and economic cooperation in countries of Asia, Europe, Middle East and Africa.

The sub-fund may invest up to 10% of its assets in other UCITS and UCIs.

The sub-fund may invest and have direct access to China A shares via Stock Connect. The Sub-Funds' may invest up to 30% of its assets in China A and B shares (combined). The Sub-Fund may also invest in P-Notes for the purpose of efficient portfolio management.

The sub-fund may invest in China via the R-QFII licence system.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency USD.

Management Process

The investment uses a combination of overall market data and fundamental analysis of individual issuers to identify equities with superior long-term prospects.

Investment Manager Amundi (UK) Limited.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Russian Equity

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period

Investments

The Sub-Fund invests mainly in equities of companies that are based in or do most of their business in Russia.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency EUR.

Management Process

The investment manager uses a combination of overall market data and fundamental analysis of individual issuers to identify equities with superior long-term prospects.

Investment Manager Amundi (UK) Limited

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

SBI FM India Equity

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the 10/40 MSCI India Index over the recommended holding period.

Investments

The sub-fund invests mainly in Indian equities.

Specifically, the sub-fund invests at least 67% of assets in equities and equity-linked instruments of companies that are headquartered, or do substantial business, in India.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The sub-fund may use derivatives for hedging.

Base currency USD.

Management Process

The investment team actively manages the sub-fund's portfolio by using a stock-picking model (bottom-up) that aims to select the most attractive equities based on growth potential and valuation.

Investment Manager Amundi Hong Kong Ltd.

Investment Advisor SBI-FM.

[4]Decreases yearly, reaching zero 3 years after investment. Performance fee benchmark MSCI EMU (dividend reinvested) Index. Performance fee measurement period: 1 year period from 1 Feb – 31 Jan. For a complete list of share classes available, go to www.amundi.lu/amundi-funds

Euroland Equity Risk Parity

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI EMU (net dividends reinvested) Index over the recommended holding period, with lower volatility.

Investments

The sub-fund invests mainly in Eurozone equities.

Specifically, the sub-fund invests at least 75% of net assets in equities that are denominated in euro and are issued by companies in the MSCI EMU index that are headquartered, or do substantial business, in the Eurozone.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.

Base currency EUR.

Management Process

The investment team allocates the equities of the benchmark according to their volatility (top-down), in order to construct a portfolio that is designed to have lower overall risk characteristics than the benchmark.

Investment Manager Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

European Equity Conservative

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI Europe (dividends reinvested) Index over the recommended holding period, with lower volatility.

Investments

The sub-fund invests mainly in European equities.

Specifically, the sub-fund invests at least 67% of assets in equities of companies that are in the MSCI Europe index, and at least 75% of net assets in companies that are headquartered, or do substantial business, in Europe. There are no currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.

Base currency EUR.

Management Process

The investment team screens equities for good liquidity and strong fundamentals (bottom-up), then uses a quantitative process to construct a portfolio that is designed to have lower overall risk characteristics than the benchmark.

Investment Manager Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

European Equity Dynamic Multi Factors

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI Europe (dividend reinvested) Index, over the recommended holding period, with lower volatility.

Investments

The sub-fund invests mainly in European equities.
Specifically, the sub-fund invests at least 75% of its net assets in equities that are issued by companies that are headquartered, or do substantial business, in the Europe. The sub-fund may invest up to 20 % in Small and Mid capitalization equities.
There are no currency constraints on these investments.
While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.

Base currency EUR.

Management Process

The investment team actively manages the sub-funds‘ portfolio by using a factor based approach (bottom-up), that aims to select the most attractive equities based on factors such as Momentum, Value, Size, Low Volatility and Quality.

Investment Manager Amundi Asset Management.

Global Equity Conservative

Objective and Investment Policy

Objective

To achieve long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the MSCI World (dividends reinvested) index over the recommended holding period, with lower volatility.

Investments

The sub-fund invests mainly in equities of companies around the world.

Specifically, the sub-fund invests at least 67% of assets in equities of companies that are in the MSCI World index. There are no currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other equities, equity-linked instruments, convertible bonds, bonds, money market instruments and deposits, and may invest up to 10% of net assets in UCITS/UCIs.

European Convertible Bond

Objective and Investment Policy

Objective

To achieve medium- to long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the Thomson Reuters Convertible Index-Europe Focus Hedged (EUR) Index over the recommended holding period.

Investments

The sub-fund invests mainly in convertible bonds issued by European companies. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 67% of assets in convertible bonds that are either issued by Europe-based companies (those that are headquartered or do substantial business in Europe), or are exchangeable for equities of these companies. These investments may include synthetic convertible bonds. The sub-fund may invest up to 10% of assets in convertible bonds listed in non-OECD countries. There are no rating constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in equities, money market instruments and deposits, and may invest up to 20% of net assets in ABSs and MBSs.

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.The sub-fund may use credit derivatives (up to 40% of assets).

Base currency EUR.

Management Process

The investment team chooses securities based on an intrinsic value analysis (bottom-up), then monitors the sensitivity of the portfolio to equity and credit markets according to their market expectations (top-down). The investment team actively manages market and risk exposure with the goal of optimising the asymmetric risk/return profile of the fund.

Investment Manager Amundi Asset Management.

Global Convertible Bond

Objective and Investment Policy

Objective

To achieve medium- to long-term capital growth. Specifically, the sub-fund seeks to outperform (after applicable fees) the Thomson Reuters Convertible Index-Global Focus Hedged (EUR) Index over the recommended holding period.

Investments

The sub-fund invests mainly in convertible bonds of companies around the world. The sub-fund seeks to eliminate the effects of most currency exchange differences for investments in non-euro denominated securities (currency hedging).

Specifically, the sub-fund invests at least 67% of assets in convertible bonds. There are no rating constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The sub-fund may use derivatives for hedging and efficient portfolio management.

Base currency EUR.

Management Process

The investment team chooses securities based on an intrinsic value analysis (bottom-up), then monitors the sensitivity of the portfolio to equity and credit markets according to their market expectations (top-down). The investment team actively manages market and risk exposure with the goal of optimising the asymmetric risk/return profile of the fund.

Euro Aggregate Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the Bloomberg Barclays Euro Aggregate (E) Index over the recommended holding period.

Investments

The sub-fund invests mainly in debt instruments (bonds and money market instruments) that are denominated in euro. Investments may include mortgage-backed securities (MBS).

Specifically, the sub-fund invests at least 67% of assets in euro-denominated instruments. These are:

- debt instruments issued by Eurozone governments or state agencies, or by supranational entites such as the World Bank

- investment-grade corporate debt instruments

- MBS (up to 20% of its net assets)

The sub-fund invests at least 50% of net assets in bonds denominated in euro

While complying with the above policies, the sub-fund may also invest in other types of debt instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management. The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency EUR

Management Process

The investment team analyses interest rates and economic trends (top-down) to identify the bond market segment that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select issuers and securities (bottom-up) and to construct a diversified portfolio.

Investment Manager Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Euro Corporate Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the Bloomberg Barclays Euro-Agg Corporates (E) Index over the recommended holding period.

Investments

The sub-fund invests mainly in investment-grade corporate and government bonds that are denominated in euro.

Specifically, the sub-fund invests at least 67% of assets in investment-grade bonds that are denominated in euro and are issued or guaranteed by governments in the Eurozone, or issued by companies around the world and listed on a European market.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The sub-fund may use derivatives for hedging and efficient portfolio management.

The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency EUR.

Management Process

The investment team analyses interest rate and economic trends (top-down) to identify geographic areas and sectors that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select sectors and securities (bottom-up) and to construct a highly diversified portfolio.

Euro Corporate Short Term Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the Bloomberg Barclays Euro Aggregate Corporate 1-3 Index over the recommended holding period.

Investments

The sub-fund invests mainly in investment-grade corporate bonds of companies around the world and that are denominated in euro.

Specifically, the sub-fund invests at least 50% of assets in investment-grade corporate bonds that are denominated in euro.

While complying with the above policies, the sub-fund may also invest in money market instruments and in the following assets up to these percentages of net assets:

- collateralised debt obligations with tranches rated at least BBB- (S&P) or Baa3 (Moody's): 10%

- bonds denominated in OECD or European currencies (excluding euro): 10%

- non-OECD bonds that are denominated in euro: 5%
- convertible bonds: 5%
- equities and equity-linked instruments: 10%
- deposits: none
- UCITS/UCIs: 10%

Non-euro investments are aimed to be hedged against the euro.

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates and foreign exchange). The sub-fund may use credit derivatives (up to 40% of net assets) that are rated at least BBB- (S&P) or Baa3 (Moody's).

Base currency EUR.

Management Process

The investment team analyses interest rate and economic trends (top-down) to identify geographic areas and sectors that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select sectors and securities (bottom-up) and to construct a highly diversified portfolio.

Euro Government Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the JP Morgan EMU Government Bond Investment Grade Index the recommended holding period.

Investments

The sub-fund invests mainly in bonds issued by governments in the Eurozone.

Specifically, the sub-fund invests at least 51% of assets in bonds that are denominated in euro and are issued or guaranteed by any member state of the Eurozone. There are no rating or currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%
- equities and equity-linked instruments: 10%
- UCITS/UCIs: 10%

Non-euro investments are aimed to be hedged against the euro.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on interest rates, volatility and inflation). The sub-fund may use governmental credit default swaps (up to 40% of net assets).

Base currency EUR

Management Process

The investment team analyses interest rates and economic trends (top-down) to identify the strategies that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select issuers and securities (bottom-up) and to construct a high quality government bond portfolio.

Investment Manager Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Main Risks

See "Risk Descriptions" for more information. The sub-fund may involve above-average volatility and risk of loss.

Euro Inflation Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the Bloomberg Barclays EGILB All Markets Index over the recommended holding period.

Investments

The sub-fund invests mainly in inflation-linked bonds that are denominated in euro.

Specifically, the sub-fund invests at least 67% of assets in bonds indexed to European inflation and/or inflation in any member state of the Eurozone. These bonds are issued or guaranteed by any European Union member state or public entities, or issued by private issuers that are headquartered, or do substantial business, in a member state of the European Union. At least 67% of the assets of the sub-fund are invested in bonds that are issued in euro in the Eurozone.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.

Base currency EUR.

Management Process

The investment team analyses interest rates and economic trends (top-down) to build its expectations for real interest rates and inflation rates. The investment team then uses both technical and fundamental analysis to select issuers and securities (bottom-up) and implement arbitrages between indexed and fixed-rate bonds.

Strategic Bond

Objective and Investment Policy

Objective

Seeks to increase the value of your investment and to provide income over the recommended holding period.

Investments

The Sub-Fund invests mainly in debt and debt related instruments, in particular Euro denominated securities, as well as cash and money market instruments. The Sub-Fund may invest up to 90% of its assets in below-investment grade bonds and up to 20% in bonds rated below CCC by Standard & Poor's or considered to be of comparable quality by the Management Company. The Sub-Fund may also invest in convertible bonds, up to 10% of its assets in contingent convertible bonds and, on an ancillary basis, equities.

The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear more creditworthy than their ratings indicate.

Pioneer Global High Yield Bond

Objective and Investment Policy

Objective

Seeks to increase the value of your investment and to provide income over the recommended holding period.

Investments

The Sub-Fund invests at least 80% of its assets in below- investment grade bonds, preferred stocks, convertible bonds, and mortgage-related and asset-backed securities. These securities will be from at least three countries, and may be from anywhere in the world, including emerging markets.

Money market securities and cash may be included in the calculation of the percentage of the Sub-Fund's assets invested in below-investment grade bonds to the extent they constitute interest due on securities held in the Sub-Fund's portfolio and the value of securities pending settlement.

The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear more creditworthy than their ratings indicate.

Investment Manager Amundi Pioneer Asset Management, Inc.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Pioneer US High Yield Bond

Objective and Investment Policy

Objective

Seeks to increase the value of your investment and to provide income over the recommended holding period.

Investments

The Sub-Fund invests at least 70% of its assets in below- investment grade U.S. corporate bonds, convertible securities, preferred stocks and mortgage-related and asset-backed securities. The Sub-Fund may also invest up to 30% of its assets in Canadian issuers and up to 15% in issuers from elsewhere in the world, including emerging markets, as well as in cash, money market securities, investment grade bonds, and, on an ancillary basis, equities.

Money market securities and cash may be included in the calculation of the percentage of the Sub-Fund's assets invested in below-investment grade bonds to the extent they constitute interest due on securities held in the Sub-Fund's portfolio and the value of securities pending settlement.

The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Total Hybrid Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return) over the recommended holding period.

Investments

The sub-fund invests mainly in subordinated bonds issued by companies in developed countries.

Specifically, the sub-fund invests at least 51% of net assets in subordinated corporate bonds (including contingent convertible bonds), and at least 51% of net assets in securities and instruments, of issuers that are headquartered, or do substantial business, in developed countries.

While complying with the above policies, the sub-fund may also invest in other types of bonds, convertible bonds, money market instruments, in deposits, and in the following up to these percentages of net assets:

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

There are no rating or currency constraints on these investments. Non-euro investments are aimed to be hedged against the euro.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, foreign exchange, volatility and inflation). The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency EUR.

Management Process

The investment team analyses interest rate and economic trends (top-down) to identify geographic areas and sectors that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select issuers and securities (bottom-up) and to construct a diversified portfolio.

Investment Manager Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Global Aggregate Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the Bloomberg Barclays Global Aggregate Hedged (USD) Index over the recommended holding period.

Investments

The sub-fund invests mainly in investment-grade debt instruments (bonds and money market instruments) of issuers around the world, including emerging markets. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 67% of assets in debt instruments that are issued or guaranteed by OECD governments or issued by corporate entities, including investment-grade MBSs and ABSs. There are no currency constraints on these investments., The sub-fund may invest less than 25%of the net assets in Chinese bonds denominated in local currency and investments may be made indirectly or directly (i.e. via Direct CIBM access) in Chinese bonds.The mortgages underlying the MBSs may be commercial or residential, and the MBSs may or may not have any form of government credit backing.
The sub-fund's exposure to MBSs and ABSs is limited to 40% of net assets. This includes indirect exposure gained through to-be-announced securities (TBA), which is limited to 20% of net assets.

The sub-fund invests at least 80% of assets in investment-grade securities.

While complying with the above policies, the sub-fund may also invest in other types of debt instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit interest rates and foreign exchange). The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency USD.

Management Process

The investment team uses a wide range of strategic and tactical positions, including arbitrage among credit, interest rate and currency markets, in assembling a highly diversified portfolio.

Investment Manager Amundi (UK) Limited.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Global Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the JP Morgan Government Bond Global All Maturities Unhedged in USD Index over the recommended holding period.

Investments

The sub-fund invests mainly in investment-grade bonds of issuers in OECD countries. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 67% of assets in investment-grade bonds that are either issued or guaranteed by OECD governments or supranational entities (at least 60% of assets), or issued by corporate entities. There are no currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- ABSs and MBSs: 20%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates and foreign exchange). The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency USD.

Management Process

The investment team analyses interest rate and economic trends (top-down) to identify the strategies that appear likely to offer the best risk-adjusted returns. The investment team uses a wide range of strategic and tactical positions, including arbitrage among credit, interest rate and currency markets, in assembling a highly diversified portfolio.

Global Corporate Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the Merrill Lynch Global Large Cap Corporate USD Hedged Index over the recommended holding period.

Investments

The sub-fund invests mainly in bonds of companies around the world. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 67% of assets in bonds, and may invest up to 15% of assets in below-investment-grade securities. There are no currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- ABSs and MBSs: 20%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates and foreign exchange). The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency USD.

Management Process

The investment team analyses interest rate and economic trends (top-down) to identify the geographic areas that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select sectors and securities (bottom-up) and to construct a highly diversified portfolio.

Investment Manager Amundi (UK) Limited.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Main Risks

See "Risk Descriptions" for more information. The sub-fund may involve above-average volatility and risk of loss.

Global High Yield Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees), the Bank of America Merrill Lynch Global High Yield USD Hedged Index over the recommended holding period.

Investments

The sub-fund invests mainly in below-investment-grade bonds (high-yield bonds) that are issued by companies around the world and that are denominated in US dollar, euro or any other currency of one of the G7 countries.

Specifically, the sub-fund invests at least 67% of assets in below-investment-grade corporate bonds that are denominated in euro or in the home currencies of Canada, Japan, the United Kingdom or the United States.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- asset-backed securities (ABS): 10%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Non-USD investments are aimed to be hedged against the USD.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit and interest rates). The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency USD.

Management Process

The investment team analyses long-term macroeconomic trends (top-down) to identify the geographic areas that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including extensive credit and liquidity risk analysis, to select sectors and securities (bottom-up) and to construct a highly diversified portfolio.

Global Inflation Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the Bloomberg Barclays WGILB All Markets Euro Hedged Index over the recommended holding period.

Investments

The sub-fund invests mainly in international inflation-linked bonds

Specifically, the sub-fund invests at least 50% of net assets in investment-grade inflation-linked bonds that are denominated in the currency of any of OECD or European Union member state.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%
- equities and equity-linked instruments: 10%
- UCITS/UCIs: 10%

Non-euro investments are aimed to be hedged against the euro.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, foreign exchange, and inflation). The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency EUR.

Management Process

The investment team analyses interest rates and economic trends (top-down) to build its expectations for real interest rates and inflation rates. The investment team then uses both technical and fundamental analysis to select issuers and securities (bottom-up) and implement arbitrages between indexed and fixed-rate bonds.

Global Total Return Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund invests as a feeder fund in Amundi Oblig Internationales (master fund) that seeks to outperform (after applicable fees) the JP Morgan Global Government Bond Index Broad Index over the recommended holding period.

Investments

The master fund invests mainly in OECD bonds and convertible bonds. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).
Specifically, the sub-fund invests at least 85% of net assets in units of the master fund (OR-D class). The sub-fund may invest up to 15% in deposits and derivatives that are used for hedging only.

The master fund

Amundi Oblig Internationales is a SICAV constituted under French law and qualifies as a master fund under Directive 2009/65/EC.
The master fund invests up to 100% in:
- bonds issued or guaranteed by OECD member states,
- investment-grade bonds and convertible bonds issued by companies that are headquartered, or do substantial business, in the OECD,
- MBSs and ABSs rated AAA (S&P) or Aaa (Moody's) at the time of the purchase and downgraded not less than AA or Aa2 when held.
The mortgages underlying the MBSs may be commercial or residential, and the MBSs may or may not come with any form of government credit backing.
The master fund's exposure to contingent convertible bonds is limited to 10% of net assets.
The master fund actively manages its exposure to interest rate and foreign exchange markets.
While complying with the above policies, the master fund may also invest in money market instruments, deposits, and up to 10% of net assets in UCITS/UCIs.
The master fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit and foreign exchange). The master fund may enter into temporary acquisitions and sales of securities (repurchase and reverse repurchase agreements).
The master fund's net income is automatically distributed and its net realised capital gains are automatically reinvested or distributed each year, as the management company of the master fund may determine.

Base currency (master fund and feeder fund) EUR.

Management Process

The master fund's investment team uses a wide range of strategic and tactical positions, including arbitrage among credit, interest rate and currency markets, in assembling a highly diversified portfolio.

Investment Manager (master fund and feeder fund) Amundi (UK) Limited.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Optimal Yield

Objective and Investment Policy

Objective

Seeks to increase the value of your investment and to provide income over the recommended holding period

Investments

The Sub-Fund invests mainly in below investment grade bonds from anywhere in the world, including emerging markets. The Sub-Fund may also invest in money market securities, and may invest up to 20% in convertible securities, up to 10% in contingent convertible bonds and, on an ancillary basis, in equities. The Sub-Fund's investments will mainly be denominated in euro. For temporary defensive purposes, the Sub-Fund may invest up to 49% of its assets in cash or in bonds from EU states whose national currency is the euro.

The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear more creditworthy than their ratings indicate.

Optimal Yield Short Term

Objective and Investment Policy

Objective

Seeks to increase the value of your investment and to provide income over the recommended holding period.

Investments

The Sub-Fund invests mainly in bonds of any type, from a broad range of issuers, including governments, supranational entities, international public bodies and corporations from anywhere in the world as well as money market securities. The Sub-Fund's average interest rate duration will not be greater than 3 years. The overall emerging market currency exposure may not exceed 25% of the Sub-Fund's assets.

The Sub-Fund may also invest up to 25% of its assets in bonds with attached warrants, up to 20% in convertible securities, up to 10% in contingent convertible bonds and, on an ancillary basis, equities.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange) The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear more creditworthy than their ratings indicate.

Investment Manager Amundi (UK) Limited.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps

Pioneer Strategic Income

Objective and Investment Policy

Objective

Seeks to provide a high level of current income over the recommended holding period.

Investments

The Sub-Fund invests at least 80% of its assets in bonds, including mortgage-related and asset-backed securities. These investments may be from anywhere in the world, including emerging markets, and may be denominated in any currency. The Sub-Fund may invest up to 70% of its assets in below-investment grade bonds, up to 20% in bonds rated below CCC by Standard & Poor's or considered to be of comparable quality by the Management Company, up to 30% in convertible securities and, on an ancillary basis, equities.

The Sub-Fund may hedge currency exposure back to either U.S. dollars or euro. The Sub-Fund may hold a position in any currency in connection with its investments, including as a means of managing currency exposure.

The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear more creditworthy than their ratings indicate

Investment Manager Amundi Pioneer Asset Management, Inc.

Pioneer US Corporate Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the Bloomberg Barclays Capital US Corporate Index over the recommended holding period.

Investments

The sub-fund invests mainly in investment-grade debt instruments (bonds and money market instruments) of companies in the United States. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 67% of net assets in investment-grade debt instruments that are denominated in US dollar, and at least 50% of net assets in investment-grade debt instruments issued by companies that are headquartered, or do substantial business, in the United States.

While complying with the above policies, the sub-fund may also invest in other types of debt instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, and foreign exchange). The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency USD.

Management Process

The investment team uses both technical and fundamental analysis to develop a list of individual securities that appear to be attractively valued and to offer the best risk-adjusted returns (bottom-up). The investment team also factors in analysis of economic and interest rate trends.

Investment Manager Amundi Pioneer Asset Management Inc.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Pioneer US Short Term Bond

Objective and Investment Policy

Objective

Seeks to provide income and maintain the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests mainly in U.S. dollar denominated short-term bonds and in comparable securities that are denominated in other currencies, provided that the currency exposure is principally hedged back to the U.S. dollar. The Sub-Fund's average interest rate duration is no greater than 12 months.
The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on interest rates). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear to offer the best return for their risk level.

Investment Manager Amundi Pioneer Asset Management, Inc.

Bond Asian Local Debt

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the Markit iBoxx Asian Local Bond Index over the recommended holding period.

Investments

The sub-fund invests mainly in Asian bonds (excluding Japanese bonds) that are denominated in local currencies.

Specifically, the sub-fund invests at least 67% of assets in bonds of issuers that are headquartered, or do substantial business, in Asia (excluding Japan). There are no rating constraints on these investments. The sub-fund may invest less than 30% of the net assets, indirectly or directly (i.e. via Direct CIBM access) in Chinese bonds.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.

Base currency USD.

Management Process

The investment team analyses interest rate and long term macroeconomic trends (top-down) to identify the geographic areas that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select sectors and securities (bottom-up) and to construct a highly diversified portfolio.

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) over the recommended holding period, a reference indicator that is structured as follows: 50% JP Morgan EMBI Global Diversified Euro Hedged Index and 50% JP Morgan ELMI+ Index (denominated in local currencies and converted in EUR).

Investments

The sub-fund invests mainly in debt instruments (bonds and money market instruments) of governments and companies in emerging countries. The sub-fund may invest up to 20% of the net assets in Chinese bonds denominated in local currency and investments may be made indirectly or directly (i.e. via Direct CIBM access) in Chinese bonds.

Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 50% of net assets in debt instruments that are:

- issued or guaranteed by emerging country governments or government agencies, or

- issued by companies that are headquartered, or do substantial business, in emerging countries.

There are no currency or rating constraints on these investments.

The sub-fund may invest up to 20% of net assets in ABSs and MBSs.

While complying with the above policies, the sub-fund may also invest in other types of debt instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%

- equities and equity-linked instruments: 10%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, foreign exchange, and volatility). The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency EUR.

Management Process

The investment team analyses interest rate and economic trends (top-down) to identify the geographic areas that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select issuers and securities (bottom-up) and to construct a highly diversified portfolio.

Investment Manager Amundi (UK) Limited.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Main Risks

See "Risk Descriptions" for more information. The sub-fund may involve above-average volatility and risk of loss.

Emerging Markets Bond

Objective and Investment Policy

Objective

Seeks to increase the value of your investment and to provide income over the recommended holding period. Specifically, the sub-fund seeks to outperform (after applicable fees) the 95% JP Morgan EMBI Global Diversified Index and 5.00% JP Morgan 1 Month Euro Cash Index composite benchmark over the recommended holding period.

Investments

The Sub-Fund invests mainly in government and corporate bonds from emerging markets that are denominated in U.S. dollars or other OECD currencies. The corporate bonds from emerging markets are issued by companies that are incorporated, headquartered in or do , substantial business in emerging markets.

While complying with the above policies, the sub-fund may also invest in other bonds or money market instruments, up to 25% of its assets in bonds with attached warrants, up to 10% of its assets in UCIs and UCITS and up to 5% in equities.

The sub-fund may invest up to 10% of its assets in contingent convertible bonds.

The overall currency exposure to emerging markets may not exceed 25% of the Sub-Fund's assets.**Derivatives**

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates and foreign exchange).The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager chooses securities based on an intrinsic value analysis (bottom-up), then monitors the sensitivity of the portfolio to equity and credit markets according to their market expectations (top-down). The investment team actively manages market and risk exposure with the goal of optimising the asymmetric risk/return profile of the fund.

Emerging Markets Corporate Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the CEMBI Broad Diversified Index over the recommended holding period.

Investments

The sub-fund invests mainly in bonds of companies in emerging countries, as well as in Hong Kong and Singapore. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 67% of net assets in bonds that are denominated in euro, pound sterling, US dollar or Japanese yen, and are issued by companies that are headquartered, or do substantial business, in an emerging country, Hong Kong or Singapore. There are no rating constraints on these investments.

While complying with the above policies, the sub-fund may also invest in other types of bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- convertible bonds: 25%
- ABSs and MBSs: 20%
- equities and equity-linked instruments: 10%
- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit). The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency USD.

Management Process

The investment team analyses long-term macroeconomic trends (top-down) to identify the geographic areas that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select sectors, issuers and securities (bottom-up) and to construct a highly diversified portfolio.

Emerging Markets Corporate High Yield Bond

Objective and Investment Policy

Objective

Seeks to increase the value of your investment and to provide income over the recommended holding period.

Investments

The Sub-Fund invests mainly in below investment grade corporate bonds from emerging markets that are denominated in U.S. dollars or other OECD currencies. These bonds are issued by companies that either are incorporated, headquartered in or do their business mainly in emerging markets or their credit risk is linked to emerging markets. The overall currency exposure to emerging markets may not exceed 25% of the Sub-Fund's assets. The Sub-Fund may invest up to 10% of its assets in contingent convertible bonds.
The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager uses a combination of overall market analysis and analysis of individual bond issuers to identify those bonds that appear more creditworthy than their ratings indicate and that offer the potential for attractive income.

Emerging Markets Hard Currency Bond

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the JP Morgan EMBI Global Diversified Hedged Euro Index over the recommended holding period.

Investments

The sub-fund invests mainly in bonds and convertible bonds of governments and companies in emerging countries that are denominated in euro, Swiss franc, pound sterling, US dollar or Japanese yen. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests at least 50% of net assets in bonds and convertible bonds that are:

- issued or guaranteed by emerging country governments or

- issued by companies that are headquartered, or do substantial business, in emerging countries.

There are no rating constraints on these investments.

The sub-fund may invest up to 25% of net assets in bonds issued by companies that are not 100% government-owned.

While complying with the above policies, the sub-fund may also invest in other types of bonds and convertible bonds, in money market instruments, in deposits, and in the following up to these percentages of net assets:

- ABSs and MBSs: 20%

- UCITS/UCIs: 10%

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, and volatility). The Sub-Fund may use derivatives on foreign exchange for hedging only The sub-fund may use credit derivatives (up to 40% of net assets).

Base currency EUR.

Management Process

The investment team analyses interest rate and long-term macroeconomic trends (top-down) to identify the geographic areas that appear likely to offer the best risk-adjusted returns. Emerging Markets Local Currency Bond

Objective and Investment Policy

Objective

Seeks to provide income and to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests mainly in bonds that are denominated in a local currency from emerging markets or where the bond's credit risk is linked to emerging markets.
The Sub-Fund may also invest in bonds from any country that are denominated in other currencies, and may invest up to 25% of its assets in bonds with attached warrants, up to 10% in contingent convertible bonds and up to 5% in equities.
The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS..

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager uses a combination of overall market analysis and analysis of individual bond issuers to identify those bonds that appear more creditworthy than their ratings indicate, offer the potential for attractive income and may benefit from increases in the value of local currencies.

Emerging Markets Short Term Bond

Objective and Investment Policy

Objective

Seeks to provide income and secondarily, to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests mainly in a diversified portfolio of short duration, typically 1-3 years, USD and other OECD denominated bonds from emerging markets. These bonds are issued by companies that either are incorporated, headquartered in or do their business mainly in emerging markets or their credit risk is linked to emerging markets. The overall emerging market currency exposure may not exceed 25% of the Sub-Fund's assets. The Sub-Fund may also invest up to 25% of its assets in bonds with attached warrants, up to 10% in contingent convertible bonds as well as up to 5% in equities.
The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates and foreign exchange)..

Base currency USD.

Management Process

The investment manager uses a combination of overall market analysis and analysis of individual bond issuers to identify those bonds that appear more creditworthy than their ratings indicate and that offer the potential for attractive income.

Investment Manager Amundi (UK) Limited.

BFT Optimal Income

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the EONIA (compounded daily) Index + 5% a year over the recommended holding period.

Investments

The sub-fund invests mainly in bonds and equities of issuers in European Union (EU) and OECD countries, including below-investment-grade bonds (high-yield bonds).

Specifically, the sub-fund invests in bonds and equities of issuers that are headquartered, or do substantial business, in EU or OECD countries. It may invest up to 50% of net assets in below-investment-grade bonds and its exposure to equities may be up to 30% of net assets.

While complying with the above policies, the sub-fund may also invest in convertible bonds, , financial and subordinated convertible bonds money market instruments and deposits, and up to 10% of net assets in UCITS/UCIs.

Non-euro investments are aimed to be hedged against the euro using swap, futures or forward.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange). The sub-fund may use credit derivatives and total return swap.

Base currency EUR.

Management Process

The investment team uses both technical and fundamental analysis (bottom-up), to select bonds or shares offering attractive coupon or dividend and to construct a highly diversified portfolio.

Investment Manager BFT Investment Managers.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Euro Multi-Asset Target Income

Objective and Investment Policy

Objective

Seeks to provide income and, secondarily, to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund mainly invests in a broad range of securities from around the world, including emerging markets. This may include equities, government and corporate bonds and money market securities. The Sub-Fund's bond investments may be of any quality (investment grade or below). The Sub-Fund's investments will be denominated mainly in euro. The Sub-Fund may invest, up to 40% of its assets, in securities that are denominated in currencies other than the euro, provided that the currency exposure is hedged back to the euro.
The Sub-Fund may invest up to 40% of its assets in equities including up to 20% in equities of companies that are based outside Europe.
The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange)..

Base currency EUR.

Management Process

The Investment Manager uses its own global economic analysis to determine the most attractive asset types and geographical regions, then uses analysis of individual issuers to identify individual securities that offer the best potential gain for the risk involved.

Investment Manager Amundi Deutschland GmbH

Global Perspectives

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return). Specifically, the sub-fund seeks to outperform (after applicable fees) the EONIA (compounded daily) Index over the recommended holding period, while offering controlled risk exposure. For indicative purposes, given the risk profile, the return is expected to be in excess (before applicable fees) of EONIA+ 5% per annum.

Investments

The sub-fund invests in all types of asset classes of issuers from around the world, including emerging markets.

Specifically, the sub-fund may invest between 0% and 100% of net assets in equities, bonds, convertible bonds, deposits, money market instruments and in products that expose to currencies. The sub-fund's may also invest up to 10% each in products exposing to commodities and real estates. The sub-fund's exposure to MBSs and ABSs is limited to 20% of net assets.

The modified duration of the bond and money market portfolio ranges from -2 to +10. There are no ratings, sectors or market capitalization constraints on these investments. While complying with the above policies, the sub-fund may also invest up to 10% of net assets in UCITS/UCIs.

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange).

Base currency EUR.

Management Process

The sub-fund's investment team analyses macroeconomic trends and uses valuation of asset classes (top-down) to identify the asset classes that appear likely to offer the best risk-adjusted returns. The investment team then constructs a highly diversified portfolio that can be flexibly adapted to market movements with a view to operating sustainable performance. This may involve taking both strategic and tactical positions as well as arbitrage on any equity, interest rate and currency markets.

Investment Manager Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Main Risks

See "Risk Descriptions" for more information. The sub-fund may involve above-average volatility and risk of loss.

Multi-Asset Real Return

Objective and Investment Policy

Objective

To achieve real returns through a combination of capital growth and income. Specifically, the sub-fund seeks to outperform euro inflation, using Euro HICP ex Tobacco as the indicative inflation reference over the recommended holding period

Investments

The sub-fund invests mainly in investment-grade debt instruments (bonds and money market instruments), equities and currency products of issuers around the world, including emerging markets.

Specifically, the sub-fund may invests up to 100% of net assets in government bonds and money market instruments. It may invest up to 50% of net assets in investment grade corporate bonds, up to 20% of net assets in below-investment-grade corporate bonds and its exposure to equities may range from -10% to +30% of the net assets.

The sub-fund may invest up to 20% of net assets in ABSs and MBSs.

There are no sectors, market capitalization or currency constraints on these investments.

While complying with the above policies, the sub-fund may also invest in deposits, seek exposure to commodities up to 30% of its assets, invest up to 20% of its assets in convertible bonds, up to 10% of its assets in contingent convertible bonds and up to 10% of its assets in UCITS/UCIs.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange,).

Base currency EUR.

Management Process

Depending on inflation regime, the sub-fund's investment team actively manages the sub-fund in combiningglobal geographic allocation, diversification strategies and a wide range of strategic and tactical positions, including arbitrage among equity, credit, interest rate, volatility and currency markets, in assembling a highly diversified portfolio.

Investment Manager Amundi Asset Management.

Multi-Asset Sustainable Future

Objective and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests mainly in euro denominated investment grade bonds, across the full range of maturities, issued by governments of OECD countries or supranational entities and or corporate entities. The fund may invest in inflation-linked bonds.

The Sub-Fund may invest up to 10% of its assets in contingent convertible bonds and may also invest up to 40% of its assets in equities worldwide.

The Sub-Fund aims for an improved environmental footprint and sustainability profile by integrating ESG (environmental, social and corporate governance) criteria.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Base currency EUR.

Management Process

The investment manager uses its own global economic analysis to determine the most attractive asset types and geographical regions and, then uses analysis of individual issuers to identify securities that offer the best potential gain for the risk involved.

Pioneer Income Opportunities

Objective and Investment Policy

Objective

Seeks to provide income and as a secondary objective capital appreciation over the recommended holding period.

Investments

The Sub-Fund has the flexibility to invest in a broad range of income-producing securities from around the world, including in emerging markets. This may include equities, government and corporate bonds and money market securities. The Sub-Fund's bond investments may be of any quality (investment grade or below) including up to 20% in asset-backed and mortgage-related securities, and up to 20% in convertible securities. The Sub-Fund may invest up to 10% in contingent convertible bonds and may also seek exposure to real estate.

The Sub-Fund may invest without limit in debt and equity securities of non-U.S. issuers, including up to 30% of its total assets in debt and equity securities of emerging market issuers.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency USD.

Management Process

The investment manager pursues a flexible allocation strategy which seeks to identify attractive opportunities for income and capital appreciation. In addition to constructing a portfolio of securities based on that strategy, the investment manager uses tactical asset allocation and hedging strategies in an effort to eliminate unintended risks and reduce volatility

Objective and Investment Policy

Objective

Seeks to provide income and, secondarily, to increase the value of your investment over the recommended holding period.

Investments

The Sub-Fund invests mainly in equities as well as government and corporate bonds of any credit quality, from anywhere in the world, including emerging markets. The Sub-Fund may also invest in other regulated funds, money market instruments, cash and in investments whose values are linked to prices of real estate, infrastructure, commodities or other real assets.
The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities, interest rates and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency USD.

Management Process

The investment manager uses a risk-managed approach to seeking additional performance opportunities and seeks investment prospects paying above average income. The investment manager pursues a flexible asset allocation strategy.

Investment Manager Amundi Deutschland GmbH.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Target Coupon

Objective and Investment Policy

Objective

To achieve a combination of income and capital growth (total return) the recommended holding period. Specifically, the sub-fund invests as a feeder fund in Amundi Revenus (master fund).

Investments

The master fund invests mainly in debt instruments (bonds and money market instruments) of all types that are issued by governments or companies around the world and denominated in one of the OECD currencies, with diversification among currencies and equity markets.

Specifically, the sub-fund invests at least 85% of net assets in units of the master fund (OR class). The sub-fund may invest up to 15% in deposits and derivatives that are used for hedging only.

The master fund

Amundi Revenus is an FCP that is constituted under French law and qualifies as a master fund under Directive 2009/65/EC.

The master fund invests at least 70% of net assets in debt instruments. The master fund may invest in

- below-investment-grade bonds (high-yield bonds),
- subordinated corporate bonds (including contingent convertible bonds up to 50% of net assets) and
- up to 20% of net assets in mortgage-backed securities (MBS) and asset-backed securities (ABS).

The master fund may also invest in equities of companies of all capitalisations and sectors around the world. The master fund's exposure to the equity market may range from 0% to 20% of net assets, and its exposure to the currency market may range from 0% to 100% of net assets.

The master fund may also invest up to 10% of net assets in UCITS/UCIs.

The master fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit). The master fund may enter into temporary acquisitions and sales of securities (repurchase and reverse repurchase agreements).

The amount of the distributed income will be set annually by the management company of the master fund, based on the expected returns of the assets in the portfolio

The Master Fund does not compare its performance to any particular index.

Base currency (master fund and feeder fund) EUR.

Management Process

The master fund's investment team seeks to exploit yield premiums from a broad investment universe (primarily bonds), using a management approach that is flexible and is based on high-conviction choices. It analyses interest rate and economic trends (top-down) to identify strategies and country and asset class allocations that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including risk premium and credit analysis, to select securities based on their potential to generate income (bottom-up) and to construct a highly diversified portfolio that can provide a regular return.

Investment Manager (master fund and feeder fund) Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Absolute Return Credit

Objective and Investment Policy

Objective

To achieve a positive return in any type of market condition (absolute return strategy). Specifically, the sub-fund seeks to outperform (after applicable fees) the EONIA (compounded daily) index, over the recommended holding period, while offering controlled risk exposure. For indicative purposes, given the risk profile, the return is expected to be in excess (before applicable fees) of EONIA index +4% per annum.

Investments

The sub-fund's performance comes mainly from active investment allocation between various strategies applied on debt instruments (bonds and money market instruments) of companies around the world. Investments may include mortgage-backed securities (MBS), asset-backed securities (ABS).

Specifically, the sub-fund invests in debt instruments and may also invest up to 30% of net assets in mortgage-backed securities (MBS) and asset-backed securities (ABS). This includes indirect exposure gained through to-be-announced securities (TBA), which is limited to 30% of net assets. There are no rating or currency constraints on these investments. The sub-fund seeks to eliminate the effects of most currency exchange differences for investments in non-euro denominated securities (currency hedging).

While complying with the above policies, the sub-fund may also invest in deposits and in other types of instruments in the following up to these percentages of net assets:

- convertible bonds: 30%

- UCITS/UCIs: 10%

- equities and equity-linked instruments: 5%

The sub-fund's exposure to contingent convertible bonds is limited to 20% of net assets.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, foreign exchange and volatility).

Base currency EUR.

Management Process

The investment team analyses credit market fundamentals, valuation levels and trends (top-down) to assess the global credit exposure, geographical and credit segments (High Grade, High Yield, Emerging, Securitized) allocation. The investment team then uses both technical and fundamental analysis, including credit analysis, to select sectors and securities (bottom-up) and to construct a highly diversified portfolio in order to generate performance at all stages of the credit cycle.

Investment Manager **Amundi** (UK) Limited.

Absolute Return European Equity

Objective and Investment Policy

Objective

Seeks to achieve a positive return in all types of market conditions over the recommended holding period.

Investments

The Sub-Fund invests, directly or indirectly, in equities of companies that are based in, or do most of their business in Europe. The Sub-Fund may also invest in bonds and money market securities that are either denominated in euro or in other currencies, provided that these are principally hedged back to the euro.
The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities and foreign exchange).

Base currency EUR.

Management Process

The investment manager uses macro and market analysis as well as analysis of individual companies to identify both the most attractive and least attractive securities, at the category level and the individual security level. The investment manager pursues a flexible asset allocation strategy.

Investment Manager Amundi Ireland Limited

Absolute Return Multi-Strategy

Objective and Investment Policy

Objective

Seeks to achieve a positive return in all types of market conditions over the recommended holding period.

Investments

The Sub-Fund invests, directly or indirectly, in a broad range of securities from around the world, including emerging markets. These investments may include government and corporate bonds of any maturity, equities, convertible bonds and money market securities. The Sub-Fund may also seek exposure to commodities, real estate, and currencies. The Sub-Fund may invest up to 50% of its assets in equities and up to 25% in convertible bonds (including up to 10% in contingent convertible bonds). The Sub-Fund's investments will mainly be denominated in euro, other European currencies, U.S. dollar or Japanese yen.
The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates, foreign exchange, volatility and inflation). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR.

Management Process

The investment manager first constructs a macro strategy portfolio to provide a return not correlated to any market, and then overlays this with an investment strategy to generate excess return.

Investment Manager Amundi SgR S.p.A

Euro Alpha Bond

Objective and Investment Policy

Objective
Seeks to achieve a positive return (measured in Euro) in all types of market conditions over the recommended holding period.

Investments

The Sub-Fund invests mainly in bonds and money market securities of any type from a broad range of issuers. The Sub-Fund does not invest in equities.

The Sub-Fund may invest up to 35% of its assets in below-investment grade bonds, up to 25% in convertible bonds, up to 20% in asset-backed or mortgage-related securities and up to 10% in contingent convertible bonds.

The Sub-Fund may invest up to 10% of its assets in UCIs and UCITS.

Derivatives
The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, foreign exchange and inflation).

Base currency EUR.

Management Process

The investment manager first constructs a core portfolio using a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear to be more creditworthy than their ratings indicate and overlays this with an investment strategy to generate excess return. The core portfolio is biased towards maintaining Euro exposure, low interest rate risk and investment in Investment Grade bonds. The excess return strategy principally targets interest rate risk, credit risk and currency-related investments worldwide. This strategy is typically based on the direction in which a specific security is heading, but will also take advantage of price differentials between correlated financial instruments. A sophisticated process continually assesses risk and performance and determines the allocation among different types of bonds (usually Investment Grade bonds, government bonds across the maturity spectrum, inflation-linked bonds and currency-related instruments).

Global Macro Bonds & Currencies

Objective and Investment Policy

Objective

To achieve a positive return in any type of market condition (absolute return strategy). Specifically, the sub-fund seeks to outperform (after applicable fees) the EONIA (compounded daily) Index, over the recommended holding period, while offering controlled risk exposure. For indicative purposes, given the risk profile, the return is expected to be in excess (before applicable fees) of EONIA +4% per annum.

Investments

The sub-fund's performance comes mainly from investment allocation between various strategies applied on currencies and debt instruments (bonds and money market instruments) of issuers around the world. Investments may include mortgage-backed securities (MBS) and asset-backed securities (ABS).

Specifically, the sub-fund invests in investment-grade debt instruments and up to 15% of net assets in non-rated or below-investment-grade securities (high-yield securities). The sub-fund's exposure to MBSs and ABSs is limited to 20% of net assets. This includes indirect exposure gained through to-be-announced securities (TBA), which is limited to 20% of net assets.

While complying with the above policies, the sub-fund may also invest in deposits and up to 10% of net assets in UCITS/UCIs.

There are no currency constraints on these investments.

The sub-fund's exposure to contingent convertible bonds is limited to 10% of net assets.

Derivatives

The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, foreign exchange, and volatility).

Base currency EUR.

Management Process

The investment team uses a wide range of strategic and tactical positions, including arbitrage among volatility, credit, interest rate and currency markets, in assembling a highly diversified portfolio.

Investment Manager Amundi (UK) Limited.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Main Risks

Absolute Return Forex

Objective and Investment Policy

Objective

To achieve a positive return in any type of market condition (absolute return strategy). Specifically, the sub-fund seeks to outperform (after applicable fees) the EONIA (compounded daily) Index, over the recommended holding period, while offering controlled risk exposure. For indicative purposes, given the risk profile, the return is expected to be in excess (before applicable fees) of EONIA +3% per annum.

Investments

Although the sub-fund typically invests most of its assets in money market instruments and investment-grade bonds, its performance comes mainly from investment allocation between various currency arbitrage strategies. The aim is to capture value from the highly liquid and fluctuating foreign exchange market.

Specifically, the sub-fund invests at least 67% of assets in money market instruments and investment-grade bonds that are issued around the world and listed in OECD countries.

While complying with the above policies, the sub-fund may also invest in deposits and up to 10% of net assets in UCITS/UCIs.

There are no currency constraints on these investments.

Derivatives

The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on foreign exchange,)..

Base currency EUR.

Management Process

The investment team uses economic research and a combination of fundamental, technical and quantitative models on a 12-month horizon to identify investment opportunities on the foreign exchange market. The investment team then constructs a highly diversified portfolio using a wide range of currency exposure and implementing strategic and tactical positions, including arbitrage among credit, interest rate and currency markets.

Multi-Strategy Growth

Objective and Investment Policy

Objective

Seeks to achieve positive returns in excess of cash over a full market cycle over the recommended holding period

Investments

The Sub-Fund invests, directly or indirectly, in a broad range of securities from around the world, including emerging markets. These investments may include government and corporate bonds of any maturity, equities, convertible bonds and money market securities. The Sub-Fund may invest up to 100% of its assets in equities and up to 25% in convertible bonds (including up to 10% in contingent convertible bonds). The Sub-Fund's investments will mainly be denominated in euro, other European currencies, U.S. dollars or Japanese yen.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates, foreign exchange, volatility and inflation).. The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.

Base currency EUR

Management Process

The investment manager first constructs a macro strategy portfolio to provide a return not correlated to any market, and then overlays this with an investment strategy to generate excess return. The macro strategy portfolio consists of any type of equities and bonds from any type of issuers worldwide and the asset allocation and long or short positioning are driven by macroeconomic, thematic and regional scenarios. The excess return strategy principally targets interest rates, equities, corporate bonds, currencies and commodities. This strategy will take advantage of price differentials between correlated financial instruments, but will also be based on the direction in which a specific security is heading. A sophisticated process continually assesses risk and performance and determines the allocation among different types of asset classes..

Investment Manager Amundi SGR S.p.A

Volatility Euro

Objective and Investment Policy

Objective

To achieve a positive return in any type of market condition (absolute return strategy). Specifically, the sub-fund seeks to outperform (after applicable fees) the EONIA (compounded daily) Index + 3% a year over the recommended holding period, while offering controlled risk exposure.

Investments

Although the sub-fund typically invests most of its assets in money market instruments, its performance comes mainly from investments in Eurozone equity volatility derivatives. The prices of these derivatives vary depending on the anticipated volatility of Eurozone equity markets (volatility measures the dispersion of an asset's returns around its average return).

Specifically, the sub-fund invests in exchange-traded options on the Euro Stoxx 50 index that have a one-year average maturity. Any assets that remain uninvested after the sub-fund has reached its target volatility exposure are invested in money market instruments. The sub-fund may invest up to 100% of net assets in these liquid investments.

While complying with the above policies, the sub-fund may also invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities, interest rates, foreign exchange and dividend)..

Base currency EUR.

Management Process

The investment team analyses market volatility patterns to determine the direction and extent of its volatility exposure: positive exposure when volatility is low and anticipated to rise, negative exposure when volatility is high and anticipated to decline. It also seeks to benefit from short term fluctuations of volatility ("volatility of the volatility").

Investment Manager Amundi Asset Management.

Objective and Investment Policy

Objective

To achieve a positive return in any type of market condition (absolute return strategy). Specifically, the sub-fund seeks to outperform (after applicable fees) the USD LIBOR 1-month Index + 3% a year over the recommended holding period, while offering controlled risk exposure.

Investments

Although the sub-fund typically invests most of its assets in money market instruments, its performance comes mainly from investments in US, Eurozone and Asian equity volatility derivatives. The prices of these derivatives vary depending on the anticipated volatility of equity markets in those three geographic areas (volatility measures the dispersion of an asset's returns around its average).

Specifically, the sub-fund invests in exchange-traded options and variance swaps on indices of the United States, the Eurozone and Asia that have a one-year average maturity. Any assets that remain uninvested after the sub-fund has reached its target volatility exposure are invested in money market instruments. The sub-fund may invest up to 100% of net assets in these liquid investments.

While complying with the above policies, the sub-fund may also invest up to 10% of net assets in UCITS/UCIs.

Derivatives

The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on, equities, interest rates, foreign exchange and dividend).

Base currency USD.

Management Process

The investment team analyses market volatility patterns to determine the direction and extent of its volatility exposure: positive exposure when volatility is low and anticipated to rise, negative exposure when volatility is high and anticipated to decline. It also seeks to benefit from short term fluctuations of volatility ("volatility of the volatility").

Investment Manager Amundi Asset Management.

Techniques and instruments

Please refer to the section More about Derivatives and Techniques for information regarding the maximum and expected proportions of the sub-fund's assets that may be subject to securities financing transactions and total return swaps.

Main Risks

See "Risk Descriptions" for more information. The sub-fund may involve above-average volatility and risk of loss.

Protect 90

Objective and Investment Policy

Objective
To provide a participation in financial markets evolution while also providing permanent partial protection of your investment over the recommended holding period. Specifically, the sub-fund is designed to ensure that its share price does not fall below 90% of the highest net asset value it has ever achieved.

Investments
The sub-fund invests around the world in all types of asset classes, allocating between a growth component (diversified higher risk investments) and a conservative component (lower risk investments).

Specifically, the sub-fund may invest between 0% and 100% of net assets in equities, bonds, convertible bonds, deposits and money market instruments, and in UCITS/UCIs that may be exposed to a broad range of asset classes, including those named above as well as currencies, emerging markets securities, commodities, real estate, etc.

The sub-fund may invest up to 30% of net assets in below investment-grade bonds (high-yield bonds).

Derivatives

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates, and foreign exchange,).

Base currency EUR.

Protection feature
Sub-fund shareholders benefit from a daily protection representing 90% of the highest-ever NAV since launch, regardless of the subscription or redemption dates of their shares.

When the protection feature is triggered, the board requests the guarantor to pay to the sub-fund the relevant amount due. In the event of a change in laws and regulations (such as new financial or tax obligations for the sub-fund or the guarantor), the guarantor is entitled to decrease the relevant amount due in proportion to the decrease of the NAV per share. In such a case, shareholders will be duly informed.

This protection applies to the highest-ever NAV price rounded down to the second decimal.

The protection is granted by the guarantor to the sub-fund and provided for an initial contract period of five years (beginning from the sub-fund launch date). This protection subsequently renews automatically for 1-year contract periods. The guarantor can cease offering the protection feature under any of the following circumstances:

- at the end of any contract period with a 3-month notice
- upon a change of investment manager or investment policy that does not receive the prior consent of the guarantor
- upon liquidation of the sub-fund

If the sub-fund becomes fully invested in the conservative component, the board may decide to suspend the issuance of new shares and also may either change the protection feature or liquidate the sub-fund.

In case of termination or change of the protection feature, shareholders will receive at least one month's advance notice, during which they are able to redeem shares while the protection feature is still in place. In case of liquidation, shareholders are able to redeem shares while still benefiting from the protection feature until the effective liquidation of the sub-fund.

Management Process

The investment team pursues a dynamic capital-preservation strategy, in which assets are reallocated constantly between the growth component and the conservative component, depending on the investment team's analysis of market factors.

Cash EUR

Type of Money Market Sub-Fund

The sub-fund qualifies as a standard variable net asset value MMF Sub-Fund under the MMF Regulation

Objective and Investment Policy

Objective

To offer returns in line with money markets rates while seeking to achieve a stable performance in line with the Euribor 3-month rate over the recommended holding period.

Investments

The sub-fund invests in short term assets and, more precisely, mainly in money market instruments that are denominated in euro or hedged against the euro.

Specifically, the sub-fund invests at least 67% of assets in money market instruments (including ABCPs). The sub-fund maintains within its portfolio a WAM of 90 days or less.

The sub-fund does not invest more than 30% of assets in money market instruments issued or guaranteed by any nation, public local authority within the EU, or an international body to which at least one EU member belongs.

The sub-fund may invest up to 10% of net assets in units/shares of other MMFs.

Derivatives

The sub-fund may use derivatives for hedging purposes.

Base currency EUR.

Management Process

The investment team uses both technical and fundamental analysis, including credit analysis, to select issuers and short term private securities (bottom-up) while constructing a high quality portfolio with a strong focus on liquidity and risk management.

Investment Manager Amundi Asset Management.

NOTES ON SUB-FUND COSTS

General The charges you pay as an investor in the sub-fund go to cover sub-fund operating costs, including marketing and distribution costs. These ongoing charges reduce the performance of your investment.

One-off charges taken before or after you invest These are deducted from your investment or your redemption proceeds, and are paid to sales agents and authorised intermediaries. The fees shown are maximums. To find out the actual fee for a transaction, contact your financial adviser or the transfer agent (see page 178).

Charges taken from the sub-fund over a year These charges are the same for all shareholders of a given share class.

Performance fee This fee is charged only when a share class of a sub-fund outperforms its stated performance fee reference indicator over the performance fee measurement period (and, in the case of Class A3 Shares, higher than their respective High Water Mark). The fee is equal to the performance fee percentage (as stated for each sub-fund and share class) multiplied by the amount of the outperformance.

The reference indicator is, in principle, a replica of the fund except that its portfolio performance is equal to the benchmark performance over the performance fee measurement period.

A High Water Mark is defined as the highest NAV per Share in any preceding period in respect of which a performance fee for the relvant Share was calculated and paid.

One of the two following performance fee measurement periods may apply :

the 1/3 year(s) period

the standard period is 12 months. If any performance fee is due at the end of a measurement period, the fee is paid and a new measurement period begins. If no fee is due at the end of a measurement period, the period is extended to include a second 12-month period. If, at the end of this second period there is still no performance fee due, the period can be extended to include a third 12-month period (total of 36 months). After three periods, a new measurement period begins, regardless of whether any performance fee is due or not. All share classes of a sub-fund will have the same performance fee measurement period.

The 1 year period

the period is 12 months and begins, regardless of whether any performance fee was due or not at the end of the preceding period.

The performance fee accrues daily as part of the NAV calculation. During the measurement period, previously accrued fees are canceled out by any subsequent underperformance. However, when distributions or redemption proceeds are paid out during a performance fee period, any performance fee that has accrued as of that point is considered earned. Thus if you redeem your shares or receive a cash distribution when there is an accrued performance fee, your share of the accrued fee will be deducted from the amount you receive. The accrued performance fee is paid to the Management Company at the end of the performance period.

Because different share classes may have different NAVs, the actual performance fees paid may vary by share class. For distributing shares, any distributions paid out are counted as part of performance for purposes of performance fee calculation.

RISK DESCRIPTIONS

All investments involve risk. The risks of some of these sub-funds may be comparatively high.

The risk descriptions below correspond to the risk factors named in the information about the sub-funds. To permit the risks to be read properly in connection with any sub-fund's named risks, each risk is described as for an individual sub-fund.

The risk information in this prospectus is intended to give an idea of the main and material risks associated with each sub-fund.

Any of these risks could cause a sub-fund to lose money, to perform less well than similar investments, to experience high volatility (ups and downs in NAV), or to fail to meet its objective over any period of time.

Benchmark and Sub-Fund performance risk Investors should note that any sub-fund whose objective is to outperform a given reference benchmark in adopting an active management process will , at certain points in time, achieve a return close and very similar to the relevant benchmark due to a variety of circumstances that may among other include a narrow investment universe which offers more limited opportunities in terms of securities acquisition compared to those represented in the benchmark, the chosen degree of risk exposure depending on market circumstances or environment, a wide spread portfolio investing in a large number of securities or the current liquidity conditions

Collateral management Counterparty risk arising from investments in OTC financial derivative instruments (including TRS) and securities lending transactions, securities borrowing transactions, reverse repurchase agreements and repurchase agreements is generally mitigated by the transfer or pledge of collateral in favor of the sub-fund. If a counterparty defaults, the sub-fund may need to sell non-cash collateral received at prevailing market prices in which case the sub-fund could realise a loss.

The sub-fund may also incur a loss in reinvesting cash collateral received, where permitted due to a decline in the value of the investments made.

Commodity-Related Investments Commodity values can be highly volatile, in part because they can be affected by many factors, such as changes in interest rates, changes in supply and demand, extreme weather, agricultural diseases, trade policies and political and regulatory developments.

Concentration risk To the extent that the sub-fund invests a large portion of its assets in a limited number of industries, sectors, or issuers, or within a limited geographical area, it can be more risky than a fund that invests more broadly.

When a sub-fund invests a large portion of its assets in a particular issuer, industry, type of bond, country or region, or in a series of closely interconnected economies, its performance will be more strongly affected by any business, economic, financial, market or political conditions affecting the area of concentration. This can mean both higher volatility and a greater risk of loss.

Contingent Convertible Bonds (Cocos) risk These include risks related to the characteristics of these almost perpetual securities: Coupon cancellation, partial or total reduction in the value of the security, conversion of the bond into equity, reimbursement of principal and coupon payments "subordinate" to those of other creditors with senior bonds, the possibility to call during life at predetermined levels or to extend the call. These conditions can be triggered, in whole or part, either due to financial ratios at level of the issuer or by discretionary and arbitrary decision of the latter or with the approval of the competent supervisory authority. Such securities are also innovative, yet untested and may therefore be subject to reaction of the market that may not be anticipated and that may affect their valuation and liquidity. The attractive yield offered by such securities compared to similarly rated debts may be the result of investors' undervalued risk assessment and capacity to face adverse events. Occurrence of any such risks may cause a decrease in the net asset value.

Counterparty risk An entity with which the sub-fund does business could become unwilling or unable to meet its obligations to the sub-fund.

Country risk — China In China, it is uncertain whether a court would protect the sub-fund's right to securities it may purchase via the Shanghai-Hong Kong Stock Connect or other programs, whose regulations are untested and subject to change. The structure of these schemes does not require full accountability of some of its component entities and leaves investors such as the sub-fund with relatively little standing to take legal action in China. In addition, the Security exchanges in China may tax or limit short-swing profits, recall eligible stocks, set maximum trading volumes (at the investor level or at the market level) or may otherwise limit or delay trading.

Country risk — MENA countries MENA countries may have particularly high levels of emerging market risks. Due to political and economic situation in Middle East and North Africa, markets of MENA countries have a comparatively high-risk of instability that may result from factors such as government or military intervention, or civil unrest. MENA markets may remain closed for days at a time (due to religious celebrations, for instance), and the exact dates of market closure may not be known in advance.

Country risk — Russia Investing in Russia involves particular risks. Risks associated with custody ownership and counterparties are higher than in EU Members States. For example, Russian custodial institutions may not have adequate insurance to cover losses due to theft, destruction or default. The Russian securities market may also suffer from impaired efficiency and liquidity, which may exacerbate price volatility and market disruptions.

Those Russian Transferable Securities and Money Market Instruments that are not listed on stock exchanges or traded on a Regulated Market (within the meaning of the 2010 Law), are limited to 10% of the assets of any given Sub-Fund. However, the Russian Trading System and the Moscow Interbank Currency Exchange are recognised as Regulated Markets, and thus investments in Transferable Securities and Money Market Instruments that are listed or traded on those markets are not limited to 10% of the assets of the relevant Sub-Funds. This does not mean they are free from the risks mentioned in the previous paragraph, or from a generally higher degree of risk than, for example, comparable European or US securities.

Credit risk A bond or money market security could lose value if the issuer's financial health deteriorates.

If the financial health of the issuer of a bond or money market security weakens, or if the market believes it may weaken, the value of the bond or money market security may fall. The lower the credit quality of the debt, the greater the credit risk.

In some cases an individual issuer could go into default (see "Default risk" under "Risks of Unusual Market Conditions"), even though ordinary conditions prevail in the general market.

Custody risk Assets of the Funds are safe kept by the Depositary and Shareholders are exposed to the risk of the Depositary not being able to fully meet its obligation to restitute in a short time frame all of the assets of the Funds in the case of bankruptcy of the Depositary. Securities of the Funds will normally be identified in the Depositary's books as belonging to the Funds and segregated from other assets of the Depositary which mitigates but does not exclude the risk of non restitution in case of bankruptcy. However, no such segregation applies to cash which increases the risk of non restitution of cash in case of bankruptcy. The Depositary does not keep all the assets of the Funds itself but uses a network of sub-despoitaries which are not necessarily part of the same group of companies as the Depositary. Shareholders are exposed to the risk of bankruptcy of the sub-despoitaries, to the extent that the Depositary may face difficulties ensuring the restitution of the securities to the Fund in all or in part or a timely manner. The Funds may invest in markets which custodial and/or settlement systems are not fully developed and is thus exposed to additional risks.

Currency risk Changes in currency exchange rates could reduce investment gains or increase investment losses, in some cases significantly.

Exchange rates can change rapidly and unpredictably, and it may be difficult for the sub-fund to unwind its exposure to a given currency in time to avoid losses.

Derivatives risk Certain derivatives could behave unexpectedly or could expose the sub-fund to losses that are significantly greater than the cost of the derivative.

Derivatives in general are highly volatile and do not carry any voting rights. The pricing and volatility of many derivatives (especially credit default swaps) may diverge from strictly reflecting the pricing or volatility of their underlying reference(s). In difficult market conditions, it may be impossible or unfeasible to place orders that would limit or offset the market exposure or losses created by certain derivatives.

OTC derivatives Because OTC derivatives are in essence private agreements between the sub-fund and one or more counterparties, they are less highly regulated than market-traded securities. OTC derivatives carry greater counterparty risk and liquidity risk, and it may be more difficult to force a counterparty to honor its obligations to the sub-fund. The list of counterparties contracts will be available in the annual report. This counterparty default risk is limited by the regulatory OTC derivatives counterparty limits. Mitigation techniques aiming to limit this risk are used, such as collateral policy or resets in contracts for difference.

If a counterparty ceases to offer a derivative that the sub-fund had been planning on using, the sub-fund may not be able to find a comparable derivative elsewhere and may miss an opportunity for gain or find itself unexpectedly exposed to risks or losses, including losses from a derivative position for which it was unable to buy an offsetting derivative.

Because it is generally impractical for the SICAV to divide its OTC derivative transactions among a wide variety of counterparties, a decline in the financial health of any one counterparty could cause significant losses. Conversely, if any sub-fund experiences any financial weakness or fails to meet an obligation, counterparties could become unwilling to do business with the SICAV, which could leave the SICAV unable to operate efficiently and competitively.

Exchange-traded derivatives While exchange-traded derivatives are generally considered lower-risk than OTC derivatives, there is still the risk that a suspension of trading in derivatives or in their underlying assets could make it impossible for the sub-fund to realise gains or avoid losses, which in turn could cause a delay in handling redemptions of shares. There is also a risk that settlement of exchange-traded derivatives through a transfer system may not happen when or as expected.

Default risk The issuers of certain bonds could become unable to make payments on their bonds

Defensive stance risk The more the current NAV gets close to the guaranteed NAV, the more the sub-fund seeks to preserve capital by reducing or eliminating its exposure to dynamic investments and by investing in more conservative investments. This reduces or eliminates the sub-fund's ability to benefit from any future value increases.

Emerging markets risk Emerging markets are less established than developed markets and therefore involve higher risks, particularly market, liquidity, currency risks and interest rate risks, and the risk of higher volatility.

Reasons for this higher risk may include:

- political, economic, or social instability
- fiscal mismanagement or inflationary policies
- unfavorable changes in regulations and laws and uncertainty about their interpretation
- failure to enforce laws or regulations, or to recognise the rights of investors as understood in developed markets
- excessive fees, trading costs or taxation, or outright seizure of assets
- rules or practices that place outside investors at a disadvantage
- incomplete, misleading, or inaccurate information about securities issuers
- lack of uniform accounting, auditing and financial reporting standards
- manipulation of market prices by large investors
- arbitrary delays and market closures
- fraud, corruption and error

Emerging markets countries may restrict securities ownership by outsiders or may have less regulated custody practices, leaving the sub-fund more vulnerable to losses and less able to pursue recourse.

In countries where, either because of regulations or for efficiency, the sub-fund uses depository receipts (tradable certificates issued by the actual owner of the underlying securities), P-notes or similar instruments to gain investment exposure, the sub-fund takes on risks that are not present with direct investment. These instruments involve counterparty risk (since they depend on the creditworthiness of the issuer) and liquidity risk, may trade at prices that are below the value of their underlying securities, and may fail to pass along to the sub-fund some of the rights (such as voting rights) it would have if it owned the underlying securities directly.

To the extent that emerging markets are in different time zones from Luxembourg, the sub-fund might not be able to react in a timely fashion to price movements that occur during hours when the sub- fund is not open for business.

For purposes of risk, the category of emerging markets includes markets that are less developed, such as most countries in Asia, Africa, South America and Eastern Europe, as well as countries that have successful economies but may not offer the same level of investor protection as exists in, for example, Western Europe, the US and Japan.

Equity risk Equities can lose value rapidly, and typically involve higher risks than bonds or money market instruments.

If a company goes through bankruptcy or a similar financial restructuring, its equities may lose most or all of their value.

Guarantee limitations risk The sub-fund's guarantee may not cover all of your investment, may extend only for a limited amount of time and may be altered at defined reset points.

Hedging risk Any attempts to hedge (reduce or eliminate certain risks) may not work as intended, and to the extent that they do work, they will generally eliminate potentials for gain along with risks of loss.

Any measures that the sub-fund takes that are designed to offset specific risks may work imperfectly, may not be feasible at times, or may fail completely. To the extent that no hedge exists, the sub-fund or share class will be exposed to all risks that the hedge would have protected against.

The sub-fund may use hedging within its portfolio. With respect to any designated share classes, the sub-fund may hedge either the currency exposure of the class (relative to the currency exposure(s) of the relevant portfolio or reference currency) . Hedging involves costs, which reduce investment performance.

High Yield risk: The high yield debt securities involve special considerations and risks, including the risks associated with international investing generally, such as currency fluctuations, the risks of investing in countries with smaller capital markets, limited liquidity, price volatility and restrictions on foreign investment.

Investment in high yield debt securities is subject to risks of interest rate, currency, market, credit and security. Compared to investment-grade bonds, the high yield bonds are normally lower-rated securities and will usually offer higher yields to compensate for the reduced creditworthiness or increased risk of default that these securities carry.

Interest rate risk When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment.

Investment fund risk As with any investment fund, investing in the sub-fund involves certain risks an investor would not face if investing in markets directly:

- the actions of other investors, in particular sudden large outflows of cash, could interfere with orderly management of the sub-fund and cause its NAV to fall
- the investor cannot direct or influence how money is invested while it is in the sub-fund
- the sub-fund's buying and selling of investments may not be optimal for the tax efficiency of any given investor
- the sub-fund is subject to various investment laws and regulations that limit the use of certain securities and investment techniques that might improve performance; to the extent that the sub-fund decides to register in jurisdictions that impose narrower limits, this decision could further limit its investment activities
- because the sub-fund is based in Luxembourg, any protections that would have been provided by other regulators (including, for investors outside Luxembourg, those of their home regulator) may not apply
- because sub-fund shares are not publicly traded, the only option for liquidating shares is generally redemption, which could be subject to delays and any other redemption policies set by the sub-fund
- to the extent that the sub-fund invests in other UCITS / UCIs, it may incur a second layer of investment fees, which will further erode any investment gains
- to the extent that the sub-fund uses efficient portfolio management techniques, such as securities lending, repurchase transactions and reverse repurchase transactions, and in particular if it reinvests

collateral associated with these techniques, the sub-fund takes on counterparty, liquidity, custody (e.g. of the assets' segregation) and operational, risks, which can have an impact on the performance of the sub-fund concerned.

- the investment manager or its designees may at times find their obligations to the sub-fund to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably)

Legal risk The characterization of a transaction or a party's legal capacity to enter into it could render the financial contract unenforceable and the insolvency or bankruptcy of a counterparty could pre-empt otherwise enforceable contract rights.

Leverage risk The sub-fund's net exposure above the sub-fund net asset value makes its share price more volatile.

Liquidity risk Any security could become hard to value or to sell at a desired time and price. Liquidity risk could affect the sub-fund's ability to repay repurchase proceeds by the deadline stated in the prospectus. To the extent that the sub-fund uses derivatives to increase its net exposure to any market, rate, basket of securities or other financial reference source, fluctuations in the price of the reference source will be amplified at the sub-fund level.

Low interest rate risk When interest rates are low, the yield on money market instruments and other short-term investments may not be enough to cover the sub-fund's management and operating costs, leading to a decline in the value of the sub-fund.

Management risk The sub-fund's management team may be wrong in its analysis, assumptions, or projections.

This includes projections concerning industry, market, economic, demographic, or other trends.

Market risk Prices of many securities change continuously, and can fall based on a wide variety of factors.

Examples of these factors include:

- political and economic news
- government policy
- changes in technology and business practices
- changes in demographics, cultures and populations
- natural or human-caused disasters
- weather and climate patterns
- scientific or investigative discoveries
- costs and availability of energy, commodities and natural resources

The effects of market risk can be immediate or gradual, short-term or long-term, narrow or broad.

In particular, commodity market risk may experience significant, sudden price variations that have a direct effect on the valuation of shares and securities that equate to the shares in which a sub-fund may invest and/or indices that a sub-fund may be exposed to.

Moreover, the underlying assets may evolve in a markedly different way from traditional securities markets (equity markets, bond markets etc.)

MBS / ABS risk Mortgage-backed and asset-backed securities (MBSs and ABSs) typically carry prepayment and extension risk and can carry above-average liquidity, credit and interest rate risks.

MBSs (a category that includes collateralised mortgage obligations, or CMOs) and ABSs represent an interest in a pool of debt, such as credit card receivables, auto loans, student loans, equipment leases, home mortgages and home equity loans.

When interest rates fall, these securities are often paid off early, as the mortgage-holders and other borrowers refinance the debt underlying the security. When interest rates rise, the borrowers of the underlying debt tend not to refinance their low-interest debt.

MBSs and ABSs also tend to be of lower credit quality than many other types of debt securities. To the extent that the debts underlying an MBS or ABS go into default or become uncollectable, the securities based on those debts will lose some or all of their value.

Money Market Fund Risk A Money Market Fund differs from an investment in deposits. A Money Market Fund is not a guaranteed investment and the principal invested in any Money Market Fund is capable of fluctuation. As a consequence, the risk of loss of the principal is to be borne by the Shareholders. Finally, the Fund does not rely on external support for guaranteeing the liquidity of any MMF or stabilising the NAV per unit or share.

Operational risk In any country, but especially in emerging markets, there could be losses due to errors, service disruptions or other failures, as well as fraud, corruption, electronic crime, instability, terrorism or other irregular events. Operational risks may subject the sub-fund to errors affecting valuation, pricing, accounting, tax reporting, financial reporting, and trading, among other things. Operational risks may go undetected for long periods of time, and even if they are detected it may prove impractical to recover prompt or adequate compensation from those responsible

Prepayment and extension risk Any unexpected behaviour in interest rates could hurt the performance of callable debt securities (securities whose issuers have the right to pay off the security's principal before the maturity date).

When interest rates fall, issuers tend to pay off these securities and re-issue new ones at lower interest rates. When this happens, the sub-fund may have no alternative but to reinvest the money from these prepaid securities at a lower rate of interest ("prepayment risk").

At the same time, when interest rates rise, borrowers tend not to prepay their low-interest mortgages. This may lead the sub-fund to receiving below-market yields until interest rates fall or the securities mature ("extension risk"). It can also mean that the sub-fund must either sell the securities at a loss or forgo the opportunity to make other investments that may turn out to have performed better.

The prices and yields of callable securities typically reflect the assumption that they will be paid off at a certain point before maturity. If this prepayment happens when expected, the sub-fund generally will not suffer any adverse effects. However, if it happens substantially earlier or later than expected, it can mean that the sub-fund effectively overpaid for the securities. Other factors as well can affect when or if an individual security is prepaid, including the presence or absence of any optional redemption and mandatory prepayment features, the default rate of the underlying assets and the nature of any turnover in the underlying assets.

Prepayment and extension considerations can also affect the sub-fund's duration, increasing or decreasing sensitivity to interest rates in undesired ways. In some circumstances, the failure of rates to rise or fall when anticipated could cause prepayment or extension risks as well.

Real estate investments risk Real estate and related investments can be hurt by any factor that makes an area or individual property less valuable.

Specifically, investments in real estate holdings or related businesses or securities (including interests in mortgages) can be hurt by natural disasters, economic declines, overbuilding, zoning changes, tax increases, population or lifestyle trends, environmental contamination, defaults on mortgages, failures of management, and other factors that may affect the market value or cash flow of the investment.

Small and mid-cap stock risk Stocks of small and mid-size companies can be more volatile than stocks of larger companies.

Small and mid-size companies often have fewer financial resources, shorter operating histories, and less diverse business lines, and as a result can be at greater risk of bankruptcy or other long-term or permanent business setbacks. Initial public offerings (IPOs) can be highly volatile and can be hard to evaluate because of a lack of trading history and relative lack of public information.

Volatility risk Changes in the volatility patterns of relevant markets could create sudden and/or material changes in the sub-fund's share price.

MANAGEMENT AND MONITORING OF GLOBAL RISK EXPOSURE

The Management Company uses a risk-management process, approved and supervised by its board, that enables it to monitor and measure the overall risk profile of each sub-fund. Risk calculations are performed every trading day.

There are three possible risk measurement approaches, as described below. The Management Company chooses which approach each sub-fund will use, based on the sub-fund's investment strategy. Where a sub-fund's use of derivatives is mostly for hedging and efficient portfolio management purposes, the commitment method is usually used. Where a sub-fund may use derivatives extensively, Absolute VaR is usually used, unless the sub-fund is managed with respect to a benchmark, in which case Relative VaR is used.

The board can require a sub-fund to use an additional approach (for reference only, however, not for purposes of determining compliance), and can change the approach if it believes the current method no longer adequately expresses the sub-fund's overall market exposure.

Approach	Description
Absolute Value-at-Risk (Absolute VaR)	The sub-fund seeks to estimate the maximum loss it could experience in a month (meaning 20 trading days), and requires that 99% of the time, the sub-fund's worst outcome is no worse than a 20% decline in net asset value.
Relative Value-at-Risk (Relative VaR)	The sub-fund seeks to estimate the maximum loss it could experience beyond the estimated maximum loss of a benchmark (typically an appropriate market index or combination of indexes). The sub-fund calculates the amount that, with 99% certainty, is the limit for how much the sub-fund could underperform the benchmark over a month (20 trading days). The absolute VaR of the sub-fund cannot exceed twice that of the benchmark.
Commitment	The sub-fund calculates all derivatives exposures as if they were direct investments in the underlying positions. This allows the sub-fund to include the effects of any hedging or offsetting positions as well as positions taken for efficient portfolio management. A sub-fund using this approach must ensure that its overall market exposure from derivatives commitments does not exceed 210% of total assets (100% from direct investment, 100% from derivatives and 10% from borrowings).

Any sub-fund that uses the Absolute or Relative VaR approaches must also calculate its expected gross leverage, which is stated in "Sub-Fund Descriptions". Under certain circumstances, gross leverage might exceed this percentage. This percentage of leverage might not reflect adequately the risk profile of the Sub-Funds and should be read in conjunction with the investment policy and objectives of the sub-funds. Gross leverage is a measure of total derivative usage and is calculated as the sum of the notional exposure of the derivatives used, without any netting that would allow opposite positions to be considered as cancelling each other out. As the calculation neither takes into account whether a particular derivative increases or decreases investment risk, nor takes into account the varying sensitivities of the notional exposure of the derivatives to market movements, this may not be representative of the actual level of investment risk within a sub-fund. The mix of derivatives and the purposes of any derivative's use may vary with market conditions.

For purposes of compliance and risk monitoring, any derivatives embedded in transferable securities or money market instrument count as derivatives, and any exposure to transferable securities or money market instruments gained through derivatives (except for index-based derivatives) counts as investment in those securities or instruments.

Derivatives contracts carry significant counterparty risk. Although the sub-funds use various techniques to mitigate exposure to counterparty risk, this risk is still present and could affect investment results. Counterparties used by the SICAV are identified in the annual report.

BENCHMARK DISCLOSURE

For a complete list of benchmarks currently referred to in this Prospectus and (i) provided by benchmark administrators who are availing of the transitional arrangements afforded under Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "Benchmark Regulation") and accordingly do not appear on the register of administrators and benchmarks maintained by ESMA pursuant to article 36 of the Benchmark Regulation or (ii) provided by benchmark administrators mentioned in the register referred to in article 36 of the Benchmarks Regulation as administrator authorised pursuant to article 34 of the Benchmarks Regulation, go to www.amundi.lu/Amundi-Funds.

The Management Company has adopted a written plan setting out actions, which it will take with respect to the sub-funds in the event that any benchmark materially changes or ceases to be provided (the "Contingency Plan"), as required by article 28(2) of the Benchmark Regulation. A copy of the Contingency Plan may be obtained, free of charge, and upon request at the registered office of the Company and the Management Company.

GENERAL INVESTMENT POLICIES

Each sub-fund, and the SICAV itself, must comply with all applicable EU and Luxembourg laws and regulations, as well as certain circulars, technical standards and other requirements. This section presents, in synthesised form, the portfolio management requirements of the 2010 law, the main law governing the operation of a UCITS, the MMF Regulation, governing the operation of theMMF Sub-Funds as well as the ESMA requirements for risk monitoring and management. In case of any discrepancy the law itself (which is in French) would prevail.

In the case of any detected violation of the 2010 law or, if applicable the MMF Regulation the appropriate sub-fund(s) must comply with the relevant policies a priority in its securities trades and management decisions, taking due account of the interests of its shareholders. Except where noted, all percentages and restrictions apply to each sub-fund individually.

RULES RELATED TO SUB-FUNDS OTHER THAN MMF SUB-FUNDS

Permitted securities and transactions

The table below describes the types of securities and transactions that are allowable to any UCITS under the 2010 law. Most sub-funds set limits that are more restrictive in one way or another, based on their investment objectives and strategy. No sub-fund will make use of the investments described in Rows 6 and 9 except as described in "Sub-Fund Descriptions". A sub-fund's usage of a security or technique must be consistent with its investment policies and restrictions. A sub-fund that invests or is marketed in jurisdictions outside the EU may be subject to further requirements (not described here) from regulators in those jurisdictions.

A sub-fund does not need to comply with investment limits when exercising subscription rights, so long as any violations are corrected as described above.

Security / Transaction	Requirements	
1. Transferable securities and money market instruments	Must be listed or dealt on an official stock exchange in an eligible state, or must trade in a regulated market in an eligible state that operates regularly, is recognised, and is open to the public.	Recently issued securities must pledge to seek a listing on a stock exchange or regulated market in an eligible state and must receive it within 12 months of issue.
2. Money market instruments that do not meet the requirements in row 1.	Must be subject (either at the securities level or the issuer level) to investor protection and savings regulation and also must meet one of the following criteria: • issued or guaranteed by a central, regional or local authority or a central bank of a EU member, the European Central Bank, the European Investment Bank, the EU, an international authority to which at least one EU nation belongs, a sovereign nation, or in the case of a federation, a federal state • issued by an issuer or undertaking whose securities qualify under row 1 above • issued or guaranteed by an issuer that is subject to EU prudential supervision rules or to other prudential rules the CSSF accepts as equivalent	Can also qualify if issuer belongs to a category recognized by the CSSF, is subject to investor protections that are equivalent to those described directly at left, and meets one of the following criteria: • issued by a company with at least EUR 10 million in capital and reserves that publishes annual account • issued by an entity dedicated to financing a group of companies at least one of which is publicly listed • issued by an entity dedicated to financing securitisation vehicles that benefit from a banking liquidity line
3. Units of UCITS or UCIs that are not linked to the SICAV[1]	Must be authorized by an EU member or by a state that the CSSF considers to have equivalent laws and adequate cooperation between authorities. Must issue annual and semi-annual financial reports. Must be limited by constitutional documents to investing no more than 10% of assets in other UCITS or UCIs.	Must be subject either to EU regulatory supervision and investor protections for a UCITS or to equivalent of those outside the EU (especially regarding asset segregation, borrowing, lending, and uncovered sales of transferable securities and money market instruments).
4. Unitsof UCITS or UCIs that are linked to the SICAV[1]	Must meet all requirements in row 3. The UCITS/UCI cannot impose any charges for buying, switching or redeeming units.	The prospectus of any sub-fund with substantial investments in other UCITS/UCIs must state maximum management fees for the sub-fund itself and for UCITS/UCIs it intends to hold.
5. Units of other sub-funds of the SICAV	Must meet all requirements in rows 3 and 4. The target sub-fund cannot invest, in turn, in the acquiring sub-fund (reciprocal ownership). At the time of investment, the target sub-fund must not have more than 10% of its assets in any other sub-fund.	The acquiring sub-fund surrenders all voting rights in units it acquires. The units do not count as assets of the acquiring sub-fund for purposes of minimum asset thresholds. Adhering to these requirements exempts the SICAV from the requirements of the Law of 10 August 1915.
6. Real estate and commodities, including precious metals	Investment exposure is allowed only through transferable securities, derivatives, or other allowable types of investments.	The SICAV may directly purchase real estate or other tangible property that is directly necessary to its business. Ownership of precious metals or commodities, directly or through certificates, is prohibited.
7. Credit institution deposits	Must be able to be withdrawn on demand and must not have a maturity longer than 12 months.	Institutions either must be headquartered in a EU Member State or, if not, subject to EU prudential rules or to other prudential rules the CSSF accepts as equivalent.
8. Ancillary liquid assets	No stated requirements.	As a practical matter, a sub-fund may hold up to (but not including) 50% of assets in cash or other liquid assets.
9. Derivatives and equivalent cash-settled instruments	Underlying investments or reference indicators must be those described in rows 1, 2, 3, 4, 6 and 7, or must be indices, interest rates, forex rates or currencies. In all cases, these investments or indicators, and any investments they deliver, must be within scope for the sub-fund's non-derivative investments. Total exposure cannot exceed 100% of sub-fund assets.	OTC derivatives must meet all of the following criteria: • be in categories approved by the CSSF • have reliable daily valuations that are accurate and independent • be able to be sold, liquidated or otherwise closed at fair value at any time • be with counterparties that are subject to prudential supervision • have risk profiles that can adequately be measured • not exceed 10% of the sub-fund assets when the counterpart is a credit institution or 5% with other counterparts. •

[1] A UCITS/UCI is considered to be linked to the SICAV if both are managed or controlled by the same or affiliated management companies, or if the SICAV directly or indirectly holds more than 10% of capital or voting rights of the UCITS/UCI.

10. Transferable securities and money market instruments that do not meet the requirements in rows 1, 2, 6 and 7	Limited to 10% of sub-fund assets.	
11. Securities lending and borrowing, repurchase agreements and reverse repurchase agreements	The volume of transactions must not interfere with a sub-fund's pursuit of its investment policy or its ability to meet redemptions.	The cash collateral from the transactions must be invested in high-quality, short term investments. Lending or guaranteeing loans to third parties for any other purposes is prohibited.
12. Borrowing	Except for back-to-back loans used for acquiring foreign currencies, all loans must be temporary and are limited to 10% of sub-fund's net assets.	

Diversification requirements

To ensure diversification, a sub-fund cannot invest more than a certain amount of its assets in one body or one category of securities. For purposes of this table and the next, a "body" means an individual company, except for the limits in the "In aggregate" column, which are monitored at the group or consolidated level. These diversification rules do not apply during the first six months of a sub-fund's operation.

	Maximum investment/exposure, as a % of sub-fund assets			
Category of securities	**In any one issuer**	**In aggregate**		**Other**
A. Transferable securities and money market instruments issued or guaranteed by an any nation, a public local authority within the EU, or an international body to which at least one EU member belongs.	35%**		35%	A sub-fund may invest up to 100% in as few as six issues if it is investing in accordance with the principles of risk spreading and the sub-fund invests no more than 30% in any one issue
B. Bonds subject to certain legally defined investor protections* and issued by a credit institution domiciled in the EU**	25%			80% in bonds from all issuers or bodies in whose a sub-fund has invested more than 5% of assets.
C. Any transferable securities and money market instruments other than those described in rows A and B above.	10%***	20%		20% in all companies within a single issuer 40%, in aggregate, in all issuers or bodies in which a sub-fund has invested more than 5% of its assets.
D. Credit institution deposits	20%			
E. OTC derivatives with a counterparty that is a credit institution as defined in row 7 (previous table)	10% exposure			
F. OTC derivatives with any other counterparty	5% exposure			
G. Units of UCITS or UCIs as defined in rows 3 and 4 (previous table).	20%	With no specific statement of policy, 10%; with a statement, 30% in UCI, 100% in UCITS		UCI compartments whose assets are segregated are each considered a separate UCI. Assets held by the UCITS/UCIs do not count for purposes of complying with rows A - F of this table.

* Bonds must invest the proceeds from their offerings to maintain full liability coverage and to give priority to bond investor repayment in case of issuer bankruptcy.

** Not applicable to MMF Sub-Fund

*** For index-tracking sub-funds, increases to 20%, so long as the index is a published, sufficiently diversified index that is adequate as a benchmark for its market and is recognised by the CSSF. This 20% increases to 35% (but for one issuer only) in exceptional circumstances, such as when the security is highly dominant in the regulated market in which it trades.

Limits to prevent significant influence

These limits, which apply at the SICAV level, except in respect of the MMF Sub-Funds, are intended to prevent the SICAV from the risks that could arise for it and the issuer if the SICAV were to own a significant percentage of a given security or issuer.

Category of securities	Maximum ownership, as a % of the total value of the securities issue		
Securities carrying voting rights	Less than would allow the SICAV significant management influence		These rules do not apply to: • securities described in row A (previous table) • shares of EU funds that represent the only way a sub-fund can invest in the EU fund's home country and that comply with the applicable articles of the 2010 Law
Non-voting securities of any one issuer	10%		
Debt securities of any one issuer	10%	These limits can be disregarded at purchase if not calculable at that time.	
Money market securities of any one issuer	10%		
Shares of any one UCITS or UCI	25%		

Feeder Funds

The SICAV can create sub-funds, other than MMF Sub-Funds, that qualify as a master fund or a feeder fund. It can also convert existing sub-funds into feeder funds, or switch any feeder fund to a different master fund. The rules below apply to any sub-fund that is a feeder fund.

Security	Investment Requirements	Other Terms and Requirements
Units of the master fund	At least 85% of assets.	
Derivatives and ancillary liquid assets	Up to 15% of assets.	Derivatives must only be used for hedging. In measuring derivatives exposure, the sub-fund must combine its own direct exposure with the exposure created by the master fund.

The master fund and feeder fund must have the same business days, share valuation days and financial year. The cut-off times for order processing must be coordinated so that orders for shares of the feeder fund can be processed and the resulting orders for shares of the master fund can be placed before the master fund's cut-off time.

Rules related to MMF SUB-FUNDS

The SICAV can create MMF sub-funds that qualify as standard variable net asset value MMF Sub-Funds as per the MMF Regulation. It can also convert existing sub-funds into MMF Sub-Funds or any MMF Sub-Fund to a different sub-fund's type.

Shareholders of MMF Sub-Fund should be made aware that the rules set under MMF Regulation in such regulation regarding notably permitted securities or transaction and portfolio diversification partially differ from those disclosed in the 2010 Law, notably as regards permitted assets, diversification rules and the use of financial derivative instruments.

MMF Sub-Funds' permitted securities and transactions

The table below describes the types of financial instruments that are allowable to any MMF Sub-Fund under the MMF Regulation.

<table>
<tr><th>Security / Transaction</th><th colspan="2">Requirements</th><th>Valuation</th></tr>
<tr><td>1. Eligible money market instruments</td><td>Must be listed or dealt on an official stock exchange in an eligible state, or must trade in a regulated market in an eligible state that operates regularly, is recognised, and is open to the public.</td><td rowspan="2">Money market instruments including financial instruments issued or guaranteed separately or jointly by the European Union, the national, regional and local administrations of the Member States or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International Settlements or any other relevant international financial institution or organisation to which one or more Member States belong.

Must display one of the following alternative characteristics:
• legal maturity at issuance of 397 days or less;
• residual maturity of 397 days or less;
• residual maturity until the legal redemption date of less than or equal to two (2) years, provided that the time remaining until the next interest rate reset date is 397 days or less (floating-rate money-market instruments and fixed-rate money-market instruments hedged by a swap arrangement shall be reset to a money market rate or index).

Money market instruments issued or guaranteed by the European Union, a central authority or central bank of a Member State, the European Central Bank, the European Investment Bank, the European Stability Mechanism or the European Financial Stability Facility are not subject to the Internal Credit Quality Assessment Procedure described under section "Internal Credit Quality Assessment Procedure applicable for MMF Sub-Funds".</td><td>mark-to-market whenever possible, at mark-to-model otherwise</td></tr>
<tr><td>2. Money market instruments that do not meet the requirements in row 1.</td><td>Must be subject (either at the issue or the issuer level) to regulation for the purpose of protecting investors and savings, and provided that they are:
• issued or guaranteed by a central, regional or local authority or a central bank of a EU member, the European Central Bank, the EU, the European Investment Bank, a non-Member State or, in the case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
• issued by an issuer or undertaking whose securities qualify under row 1 above, or
• issued or guaranteed by an issuer that is subject to EU prudential supervision rules or to other prudential rules the CSSF accepts as equivalent.

Can also qualify if issuer belongs to a category recognized by the CSSF, is subject to investor protections that are equivalent to those described directly at left, and meets one of the following criteria:
• issued by a company with at least EUR 10 million in capital and reserves that publishes annual account and
• issued by an entity dedicated to financing a group of companies at least one of which is publicly listed or by an entity dedicated to financing securitisation vehicles that benefit from a banking liquidity line</td><td>mark-to-market whenever possible, at mark-to-model otherwise</td></tr>
<tr><td>3. Units or shares of MMFs</td><td>Only short-term MMFs and standard MMFs authorised under the MMF Regulation and:
• no more than 10 % of the assets of the targeted MMF are able, according to the targeted MMF's rules or instruments of incorporation, to be invested in aggregate in units or shares of other MMFs;
• the targeted MMF does not hold Shares in the MMF Sub-Fund and shall not invest in the MMF Sub-Fund during the period in which the MMF Sub-Fund holds units or shares in it.</td><td>Where the targeted MMF is managed, whether directly or under a delegation, by the same manager as that of the MMF Sub-Fund or by any other company to which the manager of the MMF Sub-Fund is linked by common management or control[1], or by a substantial direct or indirect holding, the manager of the targeted MMF, or that other company, is prohibited from charging subscription or redemption fees on account of the investment by the MMF Sub-Fund in the units or shares of the targeted MMF.</td><td>net asset value issued by the targeted MMF</td></tr>

4. Reverse Repurchase agreements	The assets received shall be money market instruments in rows 1. and 2, shall not be sold, reinvested, pledged or otherwise transferred and shall be sufficiently diversified and issued entities independent from and expected not to display a high correlation with the performance of the counterparty. Securitisations and ABCPs shall not be received by the Fund as part of a reverse repurchase agreement. The market value of the assets received is at all times at least equal to the value of the cash paid out. The full amount of cash must be recallable at any time on either an accrued basis or a mark-to-market basis	Cash received as part of repurchase agreement may also be invested (but shall not otherwise be invested in other eligible assets, transferred or otherwise reused) in liquid transferable securities or money market instruments other than those under rows 1. and 2. and assets received as part of reverse repurchase agreement may be liquid transferable securities or money market instruments other than those under rows 1. and 2., provided that these assets are issued or guaranteed by the EU, a central authority or central bank of a EU Member State, the European Central Bank, the European Investment Bank, the European Stability Mechanism or the European Financial Stability Facility or issued or guaranteed by a central authority or central bank of a third country. Assets received as collateral must be subject to an haircut policy in full compliance with the provisions of the Commission Delegated Regulation (EU) 2018/990 of 10 April 2018 amending and supplementing Regulation (EU) 2017/1131 of the European Parliament and of the Council with regard to simple, transparent and standardised (STS) securitisations and asset-backed commercial papers (ABCPs), requirements for assets received as part of reverse repurchase agreements and credit quality assessment methodologies.	deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Board may consider appropriate in such case to reflect the true value thereof
5. Repurchase agreements	On a temporary basis only, for no more than seven working days, only for liquidity management purposesand not for investment purposes The counterparty receiving assets transferred by the Fund as collateral under the repurchase agreement is prohibited from selling, investing, pledging or otherwise transferring those assets without the Fund's prior consent. The cash received may be placed on deposits and may not exceed 10 %.	The Fund must have the right to terminate the agreement at any time upon giving prior notice of no more than two working days.	mark-to-market whenever possible, at mark-to-model otherwise
6. Credit institution deposits	Must be able to be repayable on demand or is able to be withdrawn at any time and must not have a maturity longer than 12 months.	Institutions either must be headquartered in a EU Member State or, if not, subject to EU prudential rules or to other prudential rules considered equivalent.	deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Board may consider appropriate in such case to reflect the true value thereof
7. Ancillary liquid assets	No stated requirements	.	

8. Derivatives	Must be dealt in on a regulated market as referred to in row 1 or OTC and all of the following conditions are fulfilled: • the underlying of the derivative instrument consists of interest rates, foreign exchange rates, currencies or indices representing one of those categories; • the derivative instrument serves only the purpose of hedging the interest rate or exchange rate risks inherent in other investments of the Fund; • the counterparties to OTC derivative transactions are institutions subject to prudential regulation and supervision and belonging to the categories approved by the competent authority of the Fund; • the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Fund's initiative.	Assets received as collateral are subject to CSSF circulars 14/592. The assets other than cash received as collateral shall be assets in rows 1 to 3, shall not be sold, reinvested, pledged or otherwise transferred and shall be sufficiently diversified and issued entities independent from and expected not to display a high correlation with the performance of the counterparty. Cash received as collateral may only be placed on deposits or invested in money market instruments or short term MMFs compliant with MMF Regulation. Assets received as collateral are subject to the haircut policy described in the collateral policy of the SICAV which is available on the website at *www.amundi.com*.	mark-to-market whenever possible, at mark-to-model otherwise
9. Securitisations and/or ABCPs	Must be sufficiently liquid and consist of any of the following having a legal maturity at issuance or a residual maturity of 2 years or less and the time remaining until the next interest rate reset date is 397 days or less: • a securitization qualifying as a "Level 2B asset" within the meaning of Article 13 of the Commission Delegated Regulation (EU) 2015/61, • an ABCP issued by an ABCP programme which fulfilled the requirements stated in Article 11 of the MMF Regulation • a simple, transparent and standardized (STS) ABCP or securitization	In respect of a securitization, must be an amortising instrument and have a WAL of two (2) years or less.	mark-to-market whenever possible, at mark-to-model otherwise

[1] A targeted MMF is considered to be linked to the Fund if both are managed or controlled by the same or affiliated management companies, or if the Fund directly or indirectly holds more than 10% of capital or voting rights of the targeted MMF.

Other assets than those under above rows 1. to 9., short selling, borrowing or cash lending, direct or indirect exposure to equity or commodities, including via derivatives, certificates representing them, indices based on them, or any other means or instrument that would give an exposure to them and securities lending agreements or securities borrowing agreements, or any other agreement that would encumber the assets of the MMF Sub-Fund are not allowed.

MMF Sub-Fund's diversification and concentration limits

To ensure diversification, any MMF Sub-Fund is subject to the following diversification rules.

Category of securities	Maximum investment/exposure, as a % of sub-fund assets		
	In any one issuer	**In aggregate**	**Other**
A. Money market instruments issued or guaranteed separately or jointly by the European Union, the national, regional and local administrations of the Member States or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of an OECD country, the People's Republic of China, Hong-Kong and/or Singapore , the International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International Settlements, or any other relevant international financial institution or organisation to which one or more Member States belong.			Up to 100%, upon authorisation of the CSSF and provided the MMF Sub-Fund - holds securities from at least six different issues by the issuer, - limits the investment in money market instruments from the same issue to a maximum of 30 % of its assets
B. Money market instruments, securitisations and ABCPs issued by the same body issued by the same body	5%	15% in a single body	Derogation:a VNAV MMF Sub-Fund may invest up to 10 % provided that the total value of such money market instruments, securitisations and ABCPs held in each issuing bodies in each of which it invests more than 5 % of its assets does not exceed 40 % of the value of its assets. Aggregate exposure to securitisations and ABCP up to 20% (15% for non STS ones).
C. Credit institution deposits made with the same credit institution	10%		
D. OTC derivatives with any other counterparty	5%		
E. Units or shares of MMFs	5% in a single targeted MMF		Maximum 17,5% in aggregate in targeted MMFs. Where 10 % or more are invested in targeted MMF, the Sub-Fund shall disclose the maximum level of the management fees that may be charged to the MMF Sub-Fund itself and to the other MMFs in which it invests and the annual report shall indicate the maximum proportion of management fees charged to the MMF Sub-Fund itself and to the other MMFs in which it invests.
F. bonds issued by a single credit institution having its registered office a Member State and which is subject, by law, to special public supervision designed to protect bond-holders.	10%		Sums deriving from the issue of these bonds must be invested in assets which, during the whole period of validity of such bonds, are capable of covering claims attaching to the bonds and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. When a MMF Sub-Fund invests more than 5 % of its assets in such bonds issued by a single issuer, the total value of those investments shall not exceed 40 % of the value of the assets of the Fund.
G. bonds issued by a single credit institution where the requirements set out in point (f) of Article 10(1) or point (c) of Article 11(1) of the Delegated Regulation (EU) 2015/61 are met.	20%	When a MMF Sub-Fund invests more than 5 % of its assets in such bonds issued by a single issuer, the total value of those investments shall not exceed 60 % of the value of the assets of the Fund.	

H. Reverse Repurchase Agreement		Received assets: exposure to a given issuer up to 15%, except where those assets take the form of money market instruments that fulfil the requirements of the 100% derogation under row 1.; Aggregate amount of cash provided to the same counterparty up to 15 %.

Companies which are included in the same group for the purposes of consolidated accounts, as defined in Directive 2013/34/EU on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings, or in accordance with recognised international accounting rules are regarded as a single body for the purpose of calculating the limits above.

A MMF or MMF Sub-Fund shall be regarded as a separate MMF for the purpose of calculating the limits above.

A MMF Sub-Fund may not hold any voting rights which would enable it to exercise significant influence over the management of an issuing body. Moreover, A MMF Sub-Fund may hold no more than 10 % of the money market instruments, securitisations and ABCPs issued by a single body. This limit is waived as regards money market instruments issued or guaranteed by the European Union, national, regional and local administrations of the Member States or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International Settlements, or any other relevant international financial institution or organisation to which one or more Member States belong.

Portfolio rules for standard MMF Sub-Funds

A standard MMF Sub-Fund shall comply on an ongoing basis with all of the following requirements:

- its portfolio is to have at all times a WAM of no more than 6 months;
- its portfolio is to have at all times a WAL of no more than 12 months, subject to the second and third subparagraphs;
- at least 7,5 % of its assets are to be comprised of daily maturing assets, reverse repurchase agreements which can be terminated by giving prior notice of one working day or cash which can be withdrawn by giving prior notice of one working day. A standard MMF Sub-Fund is not to acquire any asset other than a daily maturing asset when such acquisition would result in that MMF Sub-Fund investing less than 7,5 % of its portfolio in daily maturing assets;
- at least 15 % of its assets are to be comprised of weekly maturing assets, reverse repurchase agreements which can be terminated by giving prior notice of five working days or cash which can be withdrawn by giving prior notice of five working days. A standard MMF Sub-Fund is not to acquire any asset other than a weekly maturing asset when such acquisition would result in that MMF Sub-Fund investing less than 15 % of its portfolio in weekly maturing assets;
- for the purpose of the calculation referred to above, money market instruments or units or shares of other MMFs may be included within the weekly maturing assets up to 7,5 % of its assets provided they are able to be redeemed and settled within five working days. For the purposes of point (b) of the first subparagraph, when calculating the WAL for securities, including structured financial instruments, a standard MMF Sub-Fund shall base the maturity calculation on the residual maturity until the legal redemption of the instruments. However, in the event that a financial instrument embeds a put option, a standard MMF Sub-Fund may base the maturity calculation on the exercise date of the put option instead of the residual maturity, but only if all of the following conditions are fulfilled at all times:
  - the put option is able to be freely exercised by that Standard MMF Sub-Fund at its exercise date;
  - the strike price of the put option remains close to the expected value of the instrument at the exercise date;
  - the investment strategy of that standard MMF Sub-Fund implies that there is a high probability that the option will be exercised at the exercise date.

By way of derogation, when calculating the WAL for securitisations and ABCPs, a standard MMF Sub-Fund may instead, in the case of amortising instruments, base the maturity calculation on one of the following:

- the contractual amortisation profile of such instruments;
- the amortisation profile of the underlying assets from which the cash-flows for the redemption of such instruments result.

If the limits referred to above are exceeded for reasons beyond the control of the MMF Sub-Fund or as a result of the exercise of subscription or redemption rights, that MMF Sub-Fund shall adopt as a priority objective the correction of that situation, taking due account of the interests of its Shareholders.

A standard MMF Sub-Fund shall not take the form of a public debt CNAV MMF Sub-Funds or a LVNAV MMF Sub-Funds.

Internal Credit Quality Assessment Procedure appicable tor MMF Sub-Funds

Description of the purpose of the procedure

The Management Company bears final responsibility for the establishment, implementation and constant application of an internal credit quality assessment procedure for determining the credit quality of money markets instruments, securitisations and ABCPs which characteristics have been defined as follows:

The purpose of the internal credit quality assessment procedure is to establish the principles and methodologies that must be applied systematically to determine the investable quality of credits for the Company, in accordance with the MMF Regulation. The procedure specifies the process by which inter alia deteriorating credits should be monitored in order to avoid keeping credits that may default.

The internal credit quality assessment procedure has been defined by the Credit Risk Committee under the responsibility of the Management Company. The Credit Risk Committee is held at Amundi group level and is independent from the investment teams.

An independent credit analysis and limits management team operating under the responsibility of the Management Company, at Amundi group level and based in Paris (France) implements the methodologies that are applicable to all the key stages of the investment cycle: collection of information, analyses and assessments of the credit quality, recommendations for validation by the Credit Risk Committee, monitoring of the credits as validated by the Committee, specific monitoring of deteriorating credits and alert cases, management of cases in breach of limits.

The methodologies are reviewed and validated as many times as necessary and at least once a year, in order to adapt them to the current portfolio and to external conditions. In case of change of methodologies, all affected internal credit assessments are reviewed as soon as possible in compliance with the MMF Regulation.

Credits eligible for the money market funds are reviewed at least once a year, and as many times as required by developments impacting the credit quality.

Description of the inputs for the credit quality assessment

The methodologies for the assessment of the credit quality address the profitability, solvency and liquidity, based on specific quantitative and qualitative elements that vary depending on the type of issuers (national, regional or local administrations, financial corporations, and non-financial corporations), and the type of asset class/instrument (unrated, securitized, covered, subordinated, etc.).

The methodologies take into account quantitative and qualitative indicators that make it possible to assess in a prudent, systematic and permanent manner the reliability of the information and the visibility in the short and medium term for the viability of the issuer (both from an intrinsic point of view and in the context in which the issuer operates) and issuances.

The relevant criteria that are used for the analysis vary depending on the types of issuers and their sectors of activity. The following elements are taken into account:

- quantitative indicators, such as reported operating and financial data, are analyzed not only at accounts closing, but also in trend over time, and reassessed if necessary, in order to estimate the profitability, solvency, risk of failure and liquidity ratios that are considered to be as representative as possible;
- qualitative indicators, such as access to funding, operational and business management, strategy, governance, reputation, are evaluated in terms of their consistency, credibility or viability in the short and medium term as well as in the light of the macroeconomic and financial market situation;
- the short term nature of the asset/instrument.
- for structured financial instruments, the operational and counterparty risk inherent within the structured financial transaction and, in case of exposure to securitisations, the credit risk of the issuer, the structure of the securitisation and the credit risk of the underlying assets.

The sources of information are of sufficient, multiple, up-to-date and reliable quality, based on an efficient system, consisting of:

- at the source: annual reports and publications on the issuers' sites, presentations of issuers in the context of bilateral meetings (one-on-ones) or road shows,
- in the market: verbal or written presentations by rating agencies, internal/external sell-side research, or media/public information.

Description of the credit quality assessment methodology

The assessment of the credit quality gives rise to a recommendation indicating a level of risk-code and a limit per management desk. The risk codes represent the varying levels of credit quality, the scale ranging from 1 (solid) to 6 (low). In case of developments and events affecting the quality of the credits adversely to varying degree of seriousness, the risk-codes are downgraded accordingly, to the bottom of risk-code 4, risk-code 5, or 6. There is no mechanistic reliance on external ratings. A new credit quality assessment is undertaken whenever there is a material change that could have an impact on the existing assessment of the issuer and instrument., as further required and governed under relevant regulation issued by ESMA.

The limits are determined according to the credit quality, the size of the issuer and the share in the consolidated debt of the issuer.

The Credit Risk Committee is convened every month, and if necessary, at any time on an ad hoc basis, and validates the credit recommendations that must be pre-validated by the Head in charge of the credit risk analysis and limits management.

The Credit Risk Committee is chaired by the Deputy General Manager of Amundi group and in his absence by the Head of Risk of Amundi group. The Committee is also composed of the permanent members who are the Heads (and in their absence, their alternates) of the supervised business lines, including the Money Market, Compliance and Audit business lines, and managers of the Risk Management and Credit Analysis within the Risk business line.

Credit recommendations validated by the Credit Risk Committee are communicated to the Management Company that shall review and validate them at adequate frequency. Divergence on any recommendation shall be communicated to the Credit Risk Committee and Head in charge of the credit risk analysis and limits management for consideration of the Management Company's opinion.

If case of breach, the relevant procedure applies in order to regularize the situation:

- either by an immediate sale of the assets in breach, to comply with the limits,
- either by an extinguishing management of the assets in breach which is then followed in excess, if justified,
- or by increasing the limit absorbing the excess, if justified.

These decisions must be recorded in writing in accordance with Article 7 of the Delegated Regulation (EU) 2018/990.

Liquidity management and KYC

The Investment Manager of any MMF Sub-Fund consistently applies liquidity management procedures for assessing the capacity of any MMF Sub-Fund to maintain an adequate level of liquidity under consideration of the liquidity profiles of the relevant sub-fund's various assets and the fund concentrations and flow volatilities anticipated on basis of shareholders' related know you customer information (that includes various elements like their size, any correlation between them and past behaviors) and other liabilities impacting the Sub-Fund's assets.

MORE ABOUT DERIVATIVES AND TECHNIQUES

TYPES OF DERIVATIVES THE SUB-FUNDS MAY USE

A derivative is a financial contract whose value depends on the performance of one of more reference assets (such as a security or basket of securities, an index or an interest rate). Always consistent with its investment policy, each Sub-Fund may invest in any type of financial derivative instrument. (for MMF Sub-Funds, refer to "Rules related to MMF Sub-funds" on page 152.) These may include the following types currently making up the most common derivatives:

- currency forwards (including non-deliverable forwards), currency options currency swaps, equity swaps, futures contracts, interest rate swaps, inflation-linked swaps, interest rate swaps options, options on futures contracts, contracts for difference,volatility futures, variance swaps, warrants.
- TRS are contracts where one party transfers to another party the total performance of a reference assets, including all interest, fee income, market gains or losses, and credit losses. The maximum and expected exposure of the Sub-Funds' assets to TRS are disclosed in the Prospectus. In certain circumstances these proportions may be higher.
- credit derivatives, such as credit default swaps are contracts where a bankruptcy, default, or other "credit event" triggers a payment from one party to the other
- TBA derivatives (forward contracts on a generic pool of mortgages. Overall characteristics of this pool is specified but the exact securities to be delivered to the buyer are determined 2 days before delivery, rather than at the time of the original trade)
- structured financial derivatives, such as credit-linked and equity- linked securities
- contracts for difference are contracts whose value is based on the difference between two reference measurements such as a basket of securities

Futures are generally exchange-traded. All other types of derivatives are generally OTC. For any index-linked derivatives, the index provider determines the rebalancing frequency.

The Sub-Fund will, at any given time, be capable of meeting all its payment and delivery obligations incurred by transactions involving derivatives.

PURPOSES OF DERIVATIVES USE

Consistent with its investment policy, a sub-fund other than a MMF Sub-Fund may use derivatives for hedging against various types of risk, for efficient portfolio management or to gain exposure to certain investments or markets .

Feeder sub-funds may invest up to 15% in derivatives for hedging only.

MMF sub-funds may use derivatives only for the purpose of hedging the interest rate or exchange rate risk inherent in other investment of the relevant MMF sub-fund.

Currency hedging A sub-fund may engage in direct hedging (taking a position in a given currency that is in the opposite direction from the position created by other portfolio investments) and in cross-hedging (reducing the effective exposure to one currency while increasing the effective exposure to another).

Currency hedging can be done at the sub-fund level and at the share class level (for share classes that are hedged to a different currency than the sub-fund's base currency).

When a sub-fund holds assets that are denominated in multiple currencies, there is a greater risk that currency fluctuations will in practice not be fully hedged.

Interest rate hedging For interest rate hedging, the sub-funds typically use interest rate futures, interest rate swaps, writing call options on interest rates or buying put options on interest rates.

Credit risk hedging A sub-fund can use credit default swaps to hedge the credit risk of its assets. This includes hedges against the risks of specific assets or issuers as well as hedges against securities or issuers to which the sub-fund is not directly exposed.

Duration hedging seeks to reduce the exposure to interest rates parallel shifts along the curves. Such hedging can be done at the sub-fund level and at the share class level (for DH share classes). Duration hedged share classes are no longer available for subscription

At the share class level, this technique aims to cover the duration of the reference benchmark of the sub-fund.

Efficient portfolio management The sub-funds other than MMF Sub-Funds can use any allowable derivative for efficient portfolio management. Efficient portfolio management includes cost reduction, cash management, the orderly maintenance of liquidity and related practices (for instance, maintaining 100% investment exposure while also keeping a portion of assets liquid to handle redemptions of shares and the buying and selling of investments). Efficient portfolio management does not include any activities that create leverage at the overall portfolio level.

Gaining exposure The sub-funds, other than MMF Sub-Funds, can use any allowable derivative as a substitute for direct investment, that is, to gain investment exposure to any security, market, index, rate, or instrument that is consistent with the sub-fund's investment objective and policy. This exposure may exceed the one than would be obtained through direct investment in that position (leverage effect).

A sub-fund can also sell a credit default swap as a way of gaining a specific credit exposure. Selling a credit default swap could generate large losses if the issuer or security on which the swap is based experiences a bankruptcy, default or other "credit event".

TECHNIQUES AND INSTRUMENTS ON SECURITIES FINANCING TRANSACTIONS

Consistent with its investment policy each sub-fund may use the techniques and instruments on securities financing transcations described in this section. MMF Sub-Funds are subject to specific constraints as further described under the "Rules related to MMF Sub-Funds".

Each sub-fund must ensure that it is able at all times to meet its redemption obligations towards shareholders and its delivery obligations toward counterparties.

No sub-fund may sell, pledge, or give as security any securities received through these contracts.

Securities lending and borrowing

In securities lending and borrowing transactions, a lender transfers securities or instruments to a borrower, subject to a commitment that the borrower will return equivalent securities or instruments on a future date or when requested by the lender. Through such transactions, a sub-fund other than a MMF Sub-Fund may lend securities or instruments with any counterparty that is subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law.

A sub-fund other than a MMF Sub-Fund may lend portfolio securities either directly or through one of the following:

- a standardised lending system organised by a recognised clearing institution
- a lending system organised by a financial institution that specializes in this type of transaction

The borrower must provide a guarantee, in the form of collateral, that extends throughout the loan period and is at least equal to the global valuation of the securities lent, plus the value of any haircut considered appropriate in light of the collateral quality.

Each sub-fund other than a MMF Sub-Fund may borrow securities only in exceptional circumstances, such as:

- when securities that have been lent are not returned on time
- when, for an external reason, the sub-fund could not deliver securities when obligated to

Reverse repurchase and repurchase agreement transactions

Under these transactions, the sub-fund respectively buys or sells securities and has either the right or the obligation to sell back or buy back (respectively) the securities at a later date and a specific price. A sub-fund may enter into repurchase agreements only with counterparties that are subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law.

The securities and counterparties allowed for these operations must comply with CSSF circulars 08/356 (for sub-funds other than MMF Sub-Funds) and circular 14/592 and the MMF Regulation for MMF Sub-Funds.

Acceptable Collateral

As part of OTC Derivative transactions (including Total Return Swaps) and temporary purchases and sales of securities, the sub-fund other than MMF Sub-Funds may receive securities and cash as a guarantee (collateral). For MMF Sub-Funds related rules on acceptable collateral, refer to the "Rules related to MMF Sub-Funds".

Any collateral received other than cash should be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation.

It should be sufficiently diversified in terms of country, markets, issue and issuers and shall not entail on an aggregate basis an exposure to a given issuer for more than 20 %* of its Net Asset Value (* 30% for specific issuers in accordance with CSSF circular 14/592).

Securities received as collateral, in compliance with and as listed in the CSSF circular 08/356 (for sub-funds other than MMF Sub-Funds) and CSSF circular 14/592 must adhere to the criteria defined by the Management Company. They must be:

- liquid;
- transferable at any time;
- diversified in compliance with the relevant sub-fund's eligibility, exposure and diversification rules;
- issued by an issuer that is not an entity of the counterparty or its group and it is expected not to display a high correlation of the performance of the counterparty.

For bonds, securities will also be issued by high-quality issuers located in the OECD whose minimum rating may be AAA to BBB- on Standard & Poor's rating scale or with a rating deemed equivalent by the Management Company. Bonds must have a maximum maturity of 50 years.

Cash collateral received should only be (i) placed on deposit with entities prescribed in Article 41 1) (f) of the 2010 Law, (ii) invested in high-quality government bonds, (iii) used for the purpose of reverse repo transactions provided the transactions are with credit institutions subject to prudential supervision and the concerned Sub-Fund is able to recall at any time the full amount of cash on accrued basis, (iv) invested in short-term money market funds as defined in the MMF Regulation

These criteria are detailed in a Risks policy which can be viewed on the website at www.amundi.com and may be subject to change, especially in the event of exceptional market circumstances.

The assets received as collateral are held in custody by the Depository.

Valuation of collateral

Collateral received is valuated daily at market price (mark-to-market).

Haircuts may be applied to the collateral received (which depends on the type and sub-types of collaterals), taking into account credit quality, price volatility and any stress-test results. Haircuts on debt securities are namely based on the type of issuer and the duration of these securities. Higher haircuts are used for equities.

Margin calls are in principle made daily unless stipulated otherwise in a framework agreement covering these transactions if it has been agreed with the counterparty to apply a trigger threshold.

The collateral policy of the SICAV is made available to investor on the website at www.amundi.com.

Reinvestment of cash provided as guarantee

Any cash provided as a guarantee can only be reinvested in keeping with CSSF circular 08/356 (for sub-funds other than MMF Sub-Funds) and CSSF circular 14/592.

Any other assets provided as a guarantee will not be be sold, re-invested or pledged.

For MMF Sub-Funds related rules on reinvestment of cash, refer to the "Rules related to MMF Sub-funds".

Operational costs

The net revenues achieved from efficient portfolio management transactions remain with the relevant sub-fund. Direct and indirect operational costs may be deducted from the revenues delivered to the sub-fund.

Counterparties

Counterparties are selected through a strict selection process. Counterparties analysis is based on credit risk analysis based on financial risk analysis (such as but not limited to earnings analysis, profitability evolution, structure of balance sheet, liquidity, capital requirement), and operational risk (such as but not limited to country, activity, strategy, business model viability, risk management and management track record).

The selection :

- only concerns financial institutions of OECD countries (without any legal status criteria) whose minimum rating ranges between AAA to BBB- by Standard and Poor's, at the moment of transaction's, or considered to be equivalent by the Management Company according its own criteria and
- is made from among reputable financial intermediaries on the basis of multiple criteria related to the provision of research services (fundamental financial analysis, company information, value added by partners, solid basis for recommendations, etc.) or execution services (access to market information, transaction costs, execution prices, good transaction settlement practices, etc.).

In addition, each of the counterparties retained will be analysed using the criteria of the Risk Department, such as country, financial stability, rating, exposure, type of activity, past performance, etc.

The selection procedure, implemented annually, involves the different parties of the front office and support departments. The brokers and financial intermediaries selected through this procedure will be monitored regularly in accordance with the Execution Policy of the Management Company.

As of the prospectus date, the counterparties used for the EPM transactions are Amundi Intermediation and CACEIS. Any counterparty newly appointed will be detailed in the annual report of the SICAV.

LIMITATIONS ON EXPOSURE TO DERIVATIVES

For as long as may be necessary to comply with Taiwanese regulations, each of the following Sub-Funds intends to limit its investments (total commitments taken and premiums paid) in derivatives (including derivatives used for hedging and netting purposes), to 40% of its net asset value:

Pioneer US Short Term Bond
Pioneer US Bond
Pioneer Strategic Income
Pioneer US High Yield Bond
Pioneer Global High Yield Bond
Emerging Markets Bond
Euroland Equity
Top European Players
European Research
European Equtiy Small Cap
US Pioneer Fund
Pioneer US Equity Research
Pioneer US Equity Mid Cap Value
Emerging Markets Equity
Emerging Europe and Mediterranean Equity
China Equity
Global Ecology ESG
Euro High Yield Bond
Global Inflation Bond
CPR Global Agriculture
European Equity Conservative

Use of securities financing transactions and total return swaps

The sub-funds will not use buy-sell back transactions or sell-buy back transactions and margin lending transactions in the meaning of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse (SFTR) and the MMF Sub-Funds will not use any other EPM techniques than those provided in table under section "MMF Sub-Fund permitted securities and transactions".

INVESTING IN THE SUB-FUNDS

SHARE CLASSES

Within each sub-fund, the SICAV can create and issue share classes with various characteristics and investor eligibility requirements. Each share class is identified first by one of the base share class labels (described in the table below) and then by any applicable suffixes (described following the table). For instance, "AE-MD" would designate Class A shares that are denominated in Euro and pay monthly dividends.

BASE SHARE CLASS DESIGNATIONS

Note that even when advance approval from the board is not necessary to own a certain class of shares, such approval is always required to serve as a distributor of any given share class. For entry charges, you might be eligible to pay less than the maximum amounts shown. Consult a financial advisor. All fees shown are direct fees. Any indirect fees that are attributable to target funds and are relevant for a given sub-fund, are noted in that sub-fund's description. Performance fees apply to most of the sub-funds and share classes. For a complete list of sub-funds and share classes currently available, go to www.amundi.lu/Amundi-Funds.

Unless specified in the prospectus for each sub-fund the following terms shall apply to the Share classes referred to below

				Maximum Fees				
				Share Transactions		Annual		
Class Label	**Available to**	**Management Company approval needed?**	**Minimum initial investment**	**Purchase**	**Redemption**	Management	Administration	Distribution
A,	All investors	No	None	5%	None	3.00%	0.30%	1.00%
E	All investors	No	EUR 25,000	4%	None	2.00%	0.30%	None
G	All investors	No	None	3%	None	2.00%	0.30%	1.00%
B, C, T, U	All investors	No	None	Deferred sales charges	None	2.50%	0.30%	1.00%
F,	All investors	No	None	none	None	4.00%	0.30%	None
R	Reserved for intermediaries or providers of individual portfolio management services that are prohibited, by law or contract from retaining inducements	No	None	None	None	2.00%	0.30%	None
P	Reserved for distributors or sales agents, providing investors with fee-based investment advice and the Management Company (or its agents) with fee-based services provided on a dedicated platform.	Yes	EUR 30 million	none	None	2.00%	0.30%	None
H	funds established in Italy by Amundi Group companies and Italian pension funds established or managed by Amundi group companies.	No	EUR 1 million	none	None	1.00%	0.15%	None
I	Institutional investors	No	EUR 5 million	none	None	1.50%	0.15%	None
J	Institutional investors	No	EUR 25 million	none	None	1.00%	0.15%	None
M	For distribution in Italy to mandates and institutional investors *	No	EUR 100,000	none	None	1.00%	0.15%	None
O	Reserved for feeder funds managed or distributed Amundi group companies.	No	None	none	None	1.00%	0.15%	None
OR	Reserved for feeder funds established in	No	None	none	None	1.00%	0.15%	None

	France and managed or distributed by Amundi group companies							
SE	Institutional investors	Yes	EUR 10 million	none	None	1.00%	0.15%	None
X	Institutional investors	No	EUR 25 million	none	None	1.00%	0.15%	None
Z	Reserved for funds (other than feeder funds and funds domiciled in Italy) managed by an Amundi Group company	No	None	none	None	1.00%	0.15%	None

* Class M was available to all institutional investors for Shareholders having invested until 1st January 2020.

For the purpose of minimum initial investment, (except in the case of Classes E/E2) we aggregate the investments of a given investor (or group of entities fully owned by the same parent company) across the entire SICAV (all share classes and all sub-funds). Minimums apply in euro or equivalent amount in any other currency.

Purchases of any Class I or I2 Shares by Italian domiciled investors (including entities having an Italian parent company) are subject to receipt of confirmation to the satisfaction of the Management Company or its agents that the Units purchased will not be the underlying investment for any product ultimately marketed to retail investors in Italy.

Switches are subject to a max 1% fee. Classes H, M and M2 are not subject to switch fees.

Class SE and SE2Shares are subject to fees agreed between the Management Company and the relevant investors, which will not be greater than the management and/or performance fees specified for Class I and I2 Shares respectively of the relevant Sub-Fund.

I, I2, J, J2, X, P, P2, H, SE Units available for investors making initial minimum investments, either directly or through a nominee, In some cases, additional requirements apply. The Management Company may waive the minimum investment requirement of any of these Unit Classes.

Class J: J3 are reserved for UK providers of independent advisory services or discretionary investment management, or UK distributors who: (i) provide investors with fee-based investment services and activities and (ii) who do not receive any other fee, rebate or payment from the relevant Sub-Fund or the Management Company in respect of those services and activities.

Further information regarding maximum fees, performance fees and other restrictions relating to the above Share classes may be found at
https://www.amundi.lu/retail/Local-Content/Footer/Quick-Links/Regulatory-information/Amundi-Funds

The Share classes available as at June 1, 2019 are shown below and were renamed as indicated in the second column

Class Label	Class Label (as from June 1, 2019)	Available to	Board approval needed?	Minimum initial investment[2]	Maximum Fees: Share Transactions: Purchase[1]	Switch	Redemp-tion	Annual: Manage-ment	Adminis-tration	Distri-bution

Class A, I, O S and X denominated Share classes may be created with specific conditions. Further information regarding minimum investment requirements, maximum fees and other restrictions relating to those Share classes may be found at *www.amundi.lu/amundi-funds*.

1 For purposes of minimum initial investment, we aggregate the investments of a given investor (or group of entities fully owned by the same parent company) across the entire SICAV (all share classes and all sub-funds). Minimums apply in USD or equivalent amount in any other currency.

2 For Volatility Euro and Volatility World, may be up to 2.00% higher if the board determines that new investments may adversely affect the interests of existing shareholders.

3 In I2 and A2 share classes, Board approval is not required.

4 For A4 share classes, switch is only possible between A4 share classes of another Sub-Fund of the UCITS

As notified to existing investors on 5th April 2019, with effect from 1st of June 2019, certain holders of Classes A, F, H, I O, OF, R, S and X will hold such share classes renamed as, respectively, Q-A, Q-F, Q-H, Q-I, Q-O, Q-OF, Q-R, Q-S and Q-X. Such share classes will no longer be actively promoted. Shareholders of the sub-funds BFT Optimal Income, Bond Asian Local Debt, CPR Global Agriculture, CPR Global Gold Mines, CPR Global Lifestyles, CPR Global Resources, Equity Emerging Conservative and Global Macro Bonds & Currencies Low Vol are not impacted by those name changes and may still refer to the above table for all other features of their share classes. All other investors should refer to the table on page 163 for information on share classes held after the 1st of June 2019.

With effect from 1st of June 2019 the above Share Classes will cease to be available for subscription by new investors.

SHARE CLASSES

Where appropriate, one or more suffixes may be added to the base share class to indicate certain characteristics.

Currency suffixes These forms part of the actual share class label and indicates the primary currency in which the shares are denominated. The following are the currency suffixes currently in use. Informaiton regarding further currency classes made available may be found at *at* www.amundi.lu/amundi-funds.

AUD	CAD	GBP	CZK	SGD	USD
CHF	EUR	JPY	PLN	SEK	NOK
DKK	HKD	NZD	RMB	TRY	

(C), (D) These indicate whether shares are accumulation (C) or distribution shares (D). These abbreviations appear in parentheses. See "Dividend Policy" below.

M, Q, S, A For distribution shares, these further qualify the nature and frequency of dividend payments. See "Dividend Policy" below.

DH Indicates that the shares are duration hedged (designed to allow the investment manager to manage interest rate risk).

In accordance with an opinion of the ESMA on January 30th, 2017, the share class hedged in duration is closed to new investor as from 30th July 2017. New Investors are shareholders that were not in the shareholder register of the share class prior to 30th of July 2017. Investors who are on the shareholder register of the share class prior to 30th of July 2017 can continue to make additional investments in the share class until 30th of July 2018.

Hgd Indicates that the shares are currency hedged. Currency hedging seeks to fully eliminate the effect of foreign exchange rate fluctuations between the share class currency and the currency exposure(s) of the relevant sub-fund portfolio. However, in practice it is unlikely that the hedging will eliminate 100% of the difference, because sub-fund cash flows, foreign exchange rates, and market prices are all in constant flux. For more on currency hedging, see "More About Derivatives and Efficient Portfolio Management", page 158.

Number Except in the case of A4 shares, indicates that the shares are limited to particular investors, distributors or countries.

AVAILABLE CLASSES

Within a Sub-Fund, classes of Shares may be defined from time to time by the SICAV so as to correspond to (i) a specific distribution policy, such as entitling to distributions or not entitling to distributions and/or (ii) a specific sales and redemption charge structure and/or (iii) a specific management or advisory fee structure and/or (iv) different distribution, Shareholder servicing or other fees, and/or (v) the currency or currency Share in which the class may be quoted (the "Pricing Currency") and based on the rate of exchange of the same Valuation Day between such currency or currency Share and the Base Currency of the relevant Sub-Fund and/or (vi) the use of different hedging techniques in order to protect in the Base Currency of the relevant Sub-Fund the assets and returns quoted in the Pricing Currency of the relevant class of Shares against long-term movements of their Pricing Currency and/or (vii) specific jurisdictions where the Shares are sold and/or (viii) specific distributions channels and/or (ix) different types of targeted investors and/or (x) specific protection against certain currency fluctuations and/or (xi) such other features as may be determined by the Management Company from time to time in compliance with applicable law.

Not all share classes and categories are available in all sub-funds, and some share classes (and sub-funds) that are available in certain jurisdictions may not be available in others. For the most current information on available share classes, go to **amundi.com or amundi-funds.com** or request a list free of charge from the registered office (see page 172).

Share Class Policies

ISSUANCE AND OWNERSHIP

Registered shares Currently, we issue shares in registered form only, meaning that the owner's name is recorded in the SICAV's register of shareholders. You can register your shares in the names of multiple owners (up to four) but can use only one registered address. Each owner of a joint account may act upon the account individually, except with respect to voting rights.

Share certificates Although we do not recommend it, you can request a printed share certificate that documents your registered shares. Certificates are mailed within 14 days of when we approve the opening of your account and process your payment for the shares.

One drawback of share certificates is that once one has been issued, you cannot switch or redeem any of your shares until you have endorsed the certificate and it has been physically received by the transfer agent. This can involve costs and can delay your transaction.

The loss of a certificate, regardless of the cause, creates further costs and delays. In addition, unless you request (and pay for) insurance, your certificates will be mailed to you at your own risk. You also bear the risk if you mail the signed certificates back to us for redemption.

Bearer shares Bearer shares have been discontinued, and in keeping with Luxembourg law, all bearer shares still in existence as of 18 February 2016 have been liquidated and the proceeds deposited with the Luxembourg Caisse de Consignation. Anyone still holding bearer share certificates should contact the Caisse. You will need to present your share certificate(s) as well as adequate identification in order to be able to claim any liquidation proceeds.

Investing through a nominee vs. directly with the SICAV If you invest through an entity that holds your shares under its own name (a nominee account), that entity is legally entitled to exercise certain rights associated with your shares, such as voting rights. If you want to retain all shareholder rights, you may invest directly with the SICAV. Be aware that in some jurisdictions, a nominee account may be the only option available.

DIVIDEND POLICY

Distributing shares These shares will distribute substantially all net investment income received by the relevant sub-fund, and may also distribute capital gains (both realised and unrealised) and capital. When a dividend is declared, the NAV of the relevant class is reduced by the amount of the dividend. The SICAV may, in compliance with the principle of equal treatment of Shareholders, decide that, for some Shares, dividends will be paid out of the gross investment income.

Accumulating Shares accumulate their entire earnings whereas Distributing Shares may pay dividends.

For Distributing Shares, dividends (if any) will be declared at least annually. Dividends may also be declared at other times or on other schedules as may be determined by the SICAV, including at monthly (M), quarterly (Q) semi annual (S) or annual (A) frequencies. The SICAV determines the distributions to be made by a Sub-Fund. Shares that have the suffix beginning with MT, QT, ST or AT pre-announce a target dividend amount, and schedule their dividend payments either monthly (M), quarterly (Q) semi annualy (S) or yearly (A).

A target dividend is an amount that the sub-fund aims to pay, but does not guarantee. Target dividends may be stated as a specific currency amount or as a percentage of NAV. Note that in order to meet a targeted dividend amount, a sub-fund may end up paying out more money than it actually earned in dividends, meaning that in effect you are getting some of your capital back as a dividend.

For information on dividend features, calendar and objectives, go to **amundi.com** (or for investors in Italy, **amundi.com/ita**).

Dividends on distributing shares are paid according to the bank account details we have on file for your account. For each share class, dividends are paid in the currency of the share class. You can request to have your dividends converted to a different currency. If the currency is one that the sub-fund uses, there is typically no currency conversion charge. In other cases you will be typically charged applicable currency conversion costs. Contact the transfer agent for terms and fees and to set up this service (see page 178).

Unclaimed dividend payments will be returned to the sub-fund after five years. Dividends are paid only on shares owned as at the record date.

No sub-fund will make a dividend payment if the assets of the SICAV are below the minimum capital requirement, or if paying the dividend would cause that situation to occur.

OTHER POLICIES

A sub-fund may issue fractional shares of as little as one one-thousandth of a share (three decimal places). Fractional shares receive their pro rata portion of any dividends, reinvestments and liquidation proceeds.

Shares carry no preferential or preemptive rights. No sub-fund is required to give existing shareholders any special rights or terms for buying new share.

Purchasing, Switching, Redeeming and Transferring Shares

The instructions in this section are generally intended for financial intermediaries and for investors conducting business directly with the SICAV. If you are investing through a financial advisor or other intermediary, you may use these instructions, but in general we recommend that you place all transaction orders through your intermediary unless there is reason not to.

INFORMATION THAT APPLIES TO ALL TRANSACTIONS EXCEPT TRANSFERS

Placing requests You can place requests to buy, switch or redeem (sell back to the SICAV) shares at any time by approved electronic means, or by fax or letter to a distributor or the transfer agent (see page 178). Fax requests by nature are subject to transmission errors, and we cannot be responsible for fax orders that do not reach us, are not legible, or become garbled in transmission.

As noted above, if you are redeeming or switching certificated shares, we cannot process your request until we have received your certificates.

When placing any request, you must include all necessary identifying information and instructions as to the sub-fund, share class, account, and size and type of transaction (purchasing, switching or redeeming). You may indicate the value of a request as a currency amount or a share amount.

Note that requests that arrive at a time when transactions in sub-fund shares are suspended will cancelled.

For each transaction, a confirmation notice will be sent to the registered account holder. These notices will include information about how much of the share price represents income, capital gains or a return of capital.

Cutoff times and processing schedule Any application to buy, switch or redeem Shares must be received by the Registrar and Transfer Agent (on behalf of the Management Company from the Agents (if any) or directly from the investor), before the cut-off time shown in "The Sub-Funds" for the relevant Sub-Fund. Any orders not considered to have arrived before the cut-off time will be processed on the relevant Sub-Fund's next Valuation Day.

If you are investing through an Agent, then, subject to the principle of equal treatment of Shareholders, different time limits or days when the Agent is open for business may apply, and may supersede the timing information given in this Prospectus. However applications must be received by Agents prior to the cut-off time. The Management Company may permit a purchase, redemption or switch application to be accepted after the cut-off time, but only if

- a Distributor and/or its Agent(s) so authorised receives the application before the cut-off time
- the acceptance of the request does not affect other Shareholders; and
- there is equal treatment of all Shareholders

Payment of the dealing price is to be made in the Pricing Currency or any other currency acceptable to the Management Company. Any currency conversion costs as well as any costs incurred on cash transfers will be charged to the Shareholder.

Orders for Equity MENA are not accepted for processing on Thursdays. Class OR of Equity Europe Concentrated, Equity Euro Concentrated and Convertible Conservative will settle on D+1, Redemptions for Class I11 of any Sub-Fund will settle on D+1. Class XU on Cash USD and Class XE on Cash EUR will settle on D+1. Subscriptions for Class AE of Cash USD will settle on D+2 The rules for request processing described in this prospectus, including those concerning the date and NAV that will apply to the execution of any order, will prevail over any other written or verbal communications. A confirmation notice will normally be sent.

Pricing Shares are priced on the relevant Dealing Day at the NAV for the relevant share class and are quoted in the currency of that share class. It is not possible to know the share price in advance.

Currency conversions We can accept and make payments in most freely convertible currencies. If the currency you request is one that the sub-fund accepts, there is typically no currency conversion charge. In other cases you will be typically charged applicable currency conversion costs, and also you may experience a delay in your investment or the receipt of redemption proceeds. The transfer agent converts currencies at exchange rates in effect at the time the conversion is processed.

Contact the transfer agent (page 178) before requesting any transaction in a currency that is different from that of the share class. In some cases, you may be asked to transmit payment earlier than would normally be required.

Fees Any purchase, switch or redemption may involve fees. For the maximum fees charged by each basic share class, see page 163. To find out the actual purchase, switch or redemption fee for a transaction, contact your financial adviser or the transfer agent (see page 178). Other parties involved in the transaction, such as a bank, financial intermediary, or paying agent may charge their own fees. Some transactions may generate tax liabilities. You are responsible for all costs and taxes associated with each request you place.

Changes to account information You must promptly inform us of any changes in personal or bank information. We will require adequate proof of authenticity for any request to change the bank account associated with your sub-fund investment.

BUYING SHARES

Also see "Information that Applies to All Transactions Except Transfers" above

To make an initial investment, submit a completed application form and all account opening documentation (such as all required tax and anti-money laundering information) to a distributor or the transfer agent (see page 178). If you place your request by fax, you must follow up by mailing a paper copy to the transfer agent (see page 178). Once an account has been opened, you can place additional orders by fax or letter.

Note that any order that arrives before your account is fully approved and established will normally be held until the account becomes operational.

If we do not receive full payment for your shares within the time indicated above for settlement, we may redeem your shares, cancel their issuance and return the payment to you, minus any investment losses and any incidental expenses incurred in cancelling the shares issued.

For optimal processing of investments, send money via bank transfer in the currency denomination of the shares you want to buy.

Multi-year investment plans Some distributors, with board approval, may offer plans in which an investor commits to investing a stated amount in one or more sub-funds over a stated period. In exchange, the investor may receive a lower purchase fee than would have applied had the same investments been made outside the plan.

The distributor who operates the plan may charge plan-related fees. However, the total amount of these fees that investors pay over the entire time they are enrolled in the plan must not be more than one- third of the amount they invest in their first year in the plan. The terms and conditions of each plan are described in a leaflet (which must be accompanied by, or state how to obtain, this prospectus). To find out which distributors currently offer plans, and in which jurisdictions, contact the SICAV (see page 172).

Contingent Deferred Sales Charges (CDSC) On certain Share Classes, a deferred sales charge is levied on Shares that are redeemed within a certain amount of time after purchase. The following table shows how the rate is calculated for each Share Class that levies this charge.

Share Class	CDSC
Class B	Maximum 4% if redeemed within the first year of purchase, 3% if redeemed within the second year, 2% if redeemed within the third year and 1% if redeemed within the fourth year
Class C	Maximum 1% during the first year of investment; none thereafter -
Class T	Maximum 2% if redeemed within the first year of purchase and 1% if redeemed within the second year
Class U	Maximum 3% if redeemed within the first year of purchase, 2% if redeemed within the second year and 1% if redeemed within the third year

Shareholders should note that for the purpose of determining the number of years Shares have been held:

(a) the anniversary of the date of subscription shall be used.
(b) the Shares held the longest period are redeemed first.
(c) the Shares which a Shareholder receives upon a conversion carry the holding period(s) which corresponds to the holding period(s) of the Shares which were converted.
(d) when a Shareholder converts Shares which have been subscribed at different times to Shares of another Sub-Fund, the Registrar and Transfer Agent will convert the Shares held for the longest period.

Shares acquired by reinvestment of dividends or distributions will be exempt from the deferred sales charge in the same manner as the deferred sales charge will also be waived on redemption of Classes B, C, T and U Shares arising out of death or disability of a Shareholder or all Shareholders (in the case of joint Shareholding).

The amount of any deferred sales charge is based on the current market value and the purchase price of the Shares being redeemed whichever is lower. For example, when a Share that has appreciated in value is redeemed during the deferred sales charge period, a deferred sales charge is assessed only on its initial purchase price.

In determining whether a deferred sales charge is payable on any redemption, the Sub-Fund will first redeem Shares not subject to any deferred sales charge, and then Shares held longest during the deferred sales charge period. Any deferred sales charge due will be retained by the Management Company, which is entitled to such deferred sales charge.

SWITCHING SHARES

Also see "Information that Applies to All Transactions Except Transfers" above

You can switch (convert) shares of most sub-funds and classes into shares of certain other sub-funds and classes. To ensure that a switch is permissible, see page 163 or contact a distributor or the transfer agent (see page 178).

All switches are, unless otherwise authorized by the Board, subject to the following conditions:

- you must meet all eligibility requirements for the share class into which you are requesting to switch
- you can only switch into a sub-fund and share class that is available in your country of residence
- the switch must not violate any particular restrictions of either sub-fund involved (as stated in "Sub-Fund Descriptions")
- A switch from a CDSC share class may only be made to the same CDSC share class of another sub-fund.
- A switch from Class E, E2, F, F2, G or G2 shares may only be made to the same share class

We process all switches of shares on a value-for-value basis, using the NAVs of the two investments (and, if applicable, any currency exchange rates) that are in effect as at the time we process the switch.

When switching into another share class charging a higher sales charge, the difference between the two sales charges will be deducted from the amount being switched.

Once you have placed a request to switch shares, you can withdraw it only if there is a suspension of trading in shares for the relevant sub-fund.

AUTOMATIC SWITCHING

Holdings in Classes B, T and U Shares will automatically convert, without any fee, into Class A Shares on a monthly basis following expiry of the deferred sales charge period applicable to the relevant Shares. Automatic conversion will happen on a monthly basis and Shareholders should note that if there is a pending redemption or conversion-out request in respect of any of the Shares to be switched, the switch of the remaining Shares into Class A Shares will take place in the following month. Switching may give rise to a tax liability for investors in certain jurisdictions. Investors should consult their tax advisers about their position.

REDEEMING SHARES

Also see "Information that Applies to All Transactions Except Transfers" above

When you redeem shares, we will send out payment (in the base currency of the share class) on the settlement day indicated under "Cutoff times and processing schedule" in the previous page. To have your redemption proceeds converted to a different currency, contact a distributor or the transfer agent prior to placing your request (see page 178).

We will pay redemption proceeds only to the shareholder(s) identified in the register of shareholders. Proceeds are paid according to the bank account details we have on file for your account. The SICAV does not pay interest on redemption proceeds whose transfer or receipt is delayed for reasons that are beyond its control.

Once you have placed a request to purchase shares, you can withdraw it only if there is a suspension of trading in shares for the relevant sub-fund.

Note that we will not pay out any redemption proceeds until we have received all investor documentation from you that we may consider necessary.

TRANSFERRING SHARES

As an alternative to switching or redemption, you may transfer ownership of your shares to another investor through the transfer agent (see page 178).

Note that all transfers are subject to any eligibility requirements and holding restrictions that may apply. For example, institutional shares cannot be transferred to non-institutional investors, and no shares of any type can be transferred to a US investor. If a transfer to an ineligible owner occurs, the board will either void the transfer, require a new transfer to an eligible owner, or forcibly liquidate the shares.

How We Calculate NAV

Timing and formula

The NAV of each Sub-Fund and Share Class is determined for each business day (the "Valuation Day") and published{*} on that day. The following formula is used to calculate NAV per Share for each Share Class of a Sub-Fund:

$$\frac{\text{(assets-liabilities) per Share Class}}{\text{number of outstanding Shares of a Class}} = \text{NAV}$$

Appropriate provisions will be made to account for the charges and fees attributable to each Sub-Fund and Share Class as well as accrued income on investments

The Net Asset Value is normally calculated by reference to the value of the underlying assets of the relevant Class within the relevant Sub-Fund on the relevant Valuation Day.

Each NAV is stated in the designated currency of the share class (and, for some share classes, in other currencies as well) and is calculated to at least two (2) decimal points except in respect of MMF Sub-Funds, for which the NAV is rounded at a maximum to the nearest basis point. All NAVs whose pricing involves currency conversion of an underlying NAV are calculated at an exchange rate in effect at the time the NAV is calculated.

{*}Only in respect of some Sub-Funds.

Concerning the following Sub-Funds, there will be no NAVs when a date of NAV is a public holiday in the countries shown in the table below.

Sub-Fund	Public Holiday In:
Equity MENA	Luxembourg or MENA
Global Total Return Bond **Target Coupon** **Protect 90** **Protect 90 USD** **European Equity Green Impact** **Euro Credit**	Luxembourg or France
Global Equity Dynamic Multi Factors	Luxembourg or USA

Orders received on a day preceding a day on which the NAV is not calculated will be executed at the next available NAV.

Swing pricing On Valuation Days when it believes that trading in a sub-fund's shares will require significant purchases or sales of portfolio investments, the Board may adjust the sub-fund's NAV to more closely reflect the actual prices of the underlying transactions, based on estimated dealing spreads, costs, and other market and trading considerations. In general, the NAV will be adjusted upward when there is strong demand to buy sub-fund shares and downward when there is strong demand to redeem sub-fund shares. For any given Valuation Day, the adjustment will normally not be larger than 2% of NAV, but the Board can raise this limit when necessary to protect the interests of shareholders.

Asset valuations In general, we determine the value of each sub-fund's assets as follows:

- **Cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued but not yet received**. Valued at full value, minus any appropriate discount we may apply based on our assessments of any circumstances that make the full payment unlikely.
- **Transferable securities, money market instruments and derivatives that are quoted or dealt in on any stock exchange or traded in any other regulated market**. Generally valued at the last available prices of the Valuation Day at the time of valuation.
- **Non-listed securities, or listed securities for which the price determined according to the above methods not representative of fair market value**. Valued in good faith at a prudent estimate of their sales price.
- **Derivatives that are not listed on any official stock exchange or are traded over the counter**. Valued daily in a reliable and verifiable manner, consistent with market practice.
- **Shares of UCITS or UCIs.** Valued at the most recent NAV reported by the UCITS/UCI that is available of the Valuation Day at the time the sub-fund is calculating its NAV.
- **Swaps.** Valued at the net present value of their cash flows.
- **Currencies.** Valued at the applicable foreign exchange rate (applies to currencies held as assets and when translating values of securities denominated in other currencies into the base currency of the sub-fund.

For any asset, the board can choose a different valuation method if it believes the method may result in a fairer valuation.

Only in respect of assets of MMF Sub-Funds, the valuation must be made at the mark-to-market value whenever possible or at the mark-to-market model value as provided under MMF Regulation.

Trades made in a sub-fund's portfolio will be reflected on the business day they are made to the extent practicable.

For complete information on how we value investments, see the articles of incorporation.

Taxes

TAXES PAID FROM SUB-FUND ASSETS

Taxe d'abonnement The SICAV is subject to a *taxe d'abonnement* at the following rates:

Cash sub-funds

- All classes: 0.01%.

All other sub-funds

- Classes H, I, J, M, O, OR, SE, X and Z: 0.01%.
- All other classes: 0.05%.

This tax is calculated and payable quarterly, on the aggregate net asset value of the outstanding shares of the SICAV at the end of each quarter. The SICAV is not currently subject to any other Luxembourg taxes on income or capital gains.

While the above tax information is accurate to the best of the board's knowledge, it is possible that a tax authority may impose new taxes (including retroactive taxes) or that the Luxembourg tax authorities may determine, for example, that any class currently identified as being subject to the 0.01% *taxe d'abonnement* should be reclassified as being subject to the 0.05% rate. The latter case could happen for an institutional share class of any sub-fund for any period during which an investor not entitled to hold institutional shares was found to have held such shares.

TAXES YOU ARE RESPONSIBLE FOR PAYING

Taxpayers in Luxembourg Shareholders whom Luxembourg considers to be residents or otherwise to have permanent establishment there, currently or in the past, may be subject to Luxembourg taxes.

Taxpayers in Other Countries Shareholders who are not Luxembourg taxpayers are not subject to any Luxembourg capital gains, income, withholding, gift, estate, inheritance or other taxes, with the rare exceptions of certain former Luxembourg residents and any investor who owns more than 10% of the SICAV's total value. However, an investment in a sub-fund may have tax implications in any jurisdiction that considers you to be a taxpayer.

FATCA The US Foreign Account Tax Compliance Act (FATCA) imposes a 30% withholding tax on certain payments to foreign entities that originate in the US, unless an exception applies. Starting 1 January 2017, any shareholders who do not provide all FATCA-related information requested, or whom we believe are US investors, may be subject to this withholding tax on all or a portion of any redemption or dividend payments paid by the sub-fund. From this same date, we may prohibit the sale or ownership of shares involving any Non-Participating FFI (NPFFI) or any other investor we believe to be subject to the withholding tax, in order to avoid any potential issues from the "Foreign Passthru payment" mechanism and the necessity of deducting the tax.

Amundi Luxembourg and the SICAV are each considered a "Reporting FFI Model 1" under FATCA, and each intends to comply with the Model I Intergovernmental Agreement between Luxembourg and the United States (IGA). Neither the SICAV nor any sub-fund expects to be subject to any FATCA withholding tax.

FATCA requires the SICAV and the sub-funds to gather certain account information (including ownership details, holdings and distribution information) about certain US investors, US-controlled investors and non-US investors that do not comply with applicable FATCA rules or do not provide all required information under the IGA. In this regard, each shareholder agrees in the Application Form to provide any required information upon request from the SICAV, a sub-fund, or its agent.

Under the IGA, this information must be reported to the Luxembourg tax authorities, who in turn may share it with the US Internal Revenue Service or other tax authorities.

FATCA is comparatively new and its implementation is still developing. While the above information summarises the board's current understanding, that understanding could be incorrect, or the way FATCA is implemented could change in a way that would make some or all investors in the sub-funds subject to the 30% withholding tax.

COMMON REPORTING STANDARD

Under CRS law, the SICAV is likely to be treated as a Luxembourg reporting financial institution. As such, as of 30 June 2017, the SICAV will be required to annually report to the Luxembourg tax authorities personal and financial information related to the identification and holdings of, and payments made to, certain investors and controlling persons of certain non-financial entities that are themselves reportable persons. Certain operations performed by reportable persons will be reported to the Luxembourg tax authorities through the issuance of statements, which will serve as a basis for the annual disclosure to these authorities.

Any shareholder who fails to comply with the SICAV's information or documentation requests may be held liable for penalties imposed on the SICAV that are attributable to the shareholder' s failure to provide the documentation.

Rights We Reserve

We reserve the right to do any of the following at any time:

- **Reject or cancel any request to buy shares**, whether for an initial or additional investment, for any reason. We can reject the entire request or part of it.
- **Refuse your investment** if we do not receive all documentation we consider necessary to open your account. Without prejudice to other specific rules (see "Measures to prevent Money laundering and Terrorism financing"), we will return your initial investment money without interest.
- **Redeem your shares and send you the proceeds or switch your holding to another class if you no longer meet the qualifying criteria for the share class you hold.** We will give you 30 calendar days' notice before doing so, to allow you time to switch to another class or redeem the shares.

  Request proof of eligibility to hold shares or compel an ineligible shareholder to relinquish ownership. If we believe that shares are being held in whole or in part by an ineligible owner, or that the circumstances of ownership may cause the SICAV to be taxed by jurisdictions other than Luxembourg, we may redeem the shares without the owner's consent. At our option, we may request certain information from the owner to establish eligibility, but we may still at any time proceed with forcible redemption. The SICAV will not be held liable for any gain or loss associated with these redemptions.
- **Temporarily suspend the calculation of NAVs or transactions in a sub-fund's shares** when any of the following is true:
  - the principal stock exchanges or markets associated with a substantial portion of the sub-fund's investments are closed during a time when they normally would be open, or their trading is restricted or suspended
  - a master fund of which the sub-fund is a feeder fund has suspended its NAV calculations or share transactions
  - the board believes an emergency exists that has made it impractical to reliably value or to trade sub-fund assets; this may include political, military, economic, monetary, fiscal, or infrastructure-related events
  - portfolio transactions are being hampered or blocked by restrictions on cash transfers or currency conversions, cannot be completed at normal exchange rates, or are otherwise affected by any settlement issue
  - notice has been given of decision to merge the SICAV or the sub-fund, or of a shareholder meeting at which it will be decided whether or not to liquidate the sub-fund or the SICAV
  - any other circumstance exists that would justify the suspension for the protection of shareholders

  A suspension could apply to any share class and sub-fund, or to all, and to any type of request (buy, switch, redeem). We can also refuse to accept requests to buy, switch or redeem shares.

  During times of suspension, any unprocessed subscription orders are cancelled, and any unprocessed conversion/redemption orders are suspended, unless you withdraw them.

  If your order is delayed in processing because of a suspension, you will be notified of the suspension within 7 days of your request, and of its termination. If a suspension lasts for an unusually long time, all investors will be notified.
- **Limit how many shares are redeemed in a short amount of time.** On any Valuation Day, no sub-fund will be obligated to process redemption requests that, in total, exceed either 10% of its outstanding shares or 10% of its net assets. To meet these limits, the sub-fund can reduce the requests on a pro rata basis. If this occurs, unfulfilled portions will be deferred to the next Valuation Day and given priority over new requests.

  On any day when the volume of redemptions to be processed is larger than the redemption capacity for the day, as determined by the rules stated in this bullet, all orders scheduled to be processed will be processed as partial redemptions, with the same pro rata percentage for each order. A sub-fund will only limit redemptions when necessary to prevent liquidity constraints that would be detrimental to remaining shareholders.
- **Process unusually large purchases or redemptions at a price different from NAV.** With any order we believe is large enough that the purchases or liquidations of portfolio securities necessary to process the order may affect the prices at which the transactions occur, we may use actual ask or bid prices (for purchases or liquidations respectively) in determining the amount of redemption proceeds due or the quantity of sub-fund shares purchased.
- **Use fair market valuation.** In any case when a sub-fund has calculated its NAV and there is subsequently a material change in the quoted market prices of that sub-fund's investments, the board may direct the sub-fund to cancel its current NAV and issue a new NAV that reflects fair market values for its holdings. If any transactions were processed at the canceled NAV, the sub-fund may re-process them at the new NAV. The board will only take these measures when it believes they are warranted in light of unusual market volatility or other circumstances. Any fair value adjustments will be applied consistently to all share classes within a sub-fund.

Measures to Prevent Crime and Terrorism

To comply with Luxembourg laws, regulations, circulars, etc. aimed at preventing money laundering and the financing of terrorism, we or any distributor may require certain types of account documentation to allow us ensuring proper identification of Investors and ultimate beneficial owners.

CUSTOMER IDENTIFICATION

Before being approved for opening an account, each investor must provide, at a minimum, the following identification:

- **Natural persons** An identity card or passport duly certified by a public authority (such as a notary, police official or ambassador) in his or her country of residence.
- **Corporations and other entities investing on their own behalf** A certified copy of the entity's incorporation documents or other official statutory document, plus, for the entity's owners or other economic beneficiaries, the identification described above for natural persons.
- **Financial intermediaries** A certified copy of the entity's incorporation documents or other official statutory document, plus certification that the account owner has obtained necessary documentation for all end investors.

You will also be required regularly to supply updated documentation. We or any distributor may ask you for additional documentation as well (either before opening an account or at any time afterward). Delay or failure to provide the required documentation may result in having any order delayed or not executed, or any proceeds withheld.

Excessive Trading and Market Timing

The sub-funds are in general designed to be long-term investments and not vehicles for frequent trading or for market timing (defined as short-term intended to take advantage of arbitrage opportunities that may arise from the interaction of market opening times and the timing of NAV calculations).

These types of trading are not acceptable as they may disrupt portfolio management and drive up sub-fund expenses, to the detriment of other shareholders. We may therefore take various measures to protect shareholder interests, including rejecting, suspending or cancelling any request we believe represents excessive trading or market timing. We may also forcibly redeem your investment, at your sole cost and risk, if we believe you have engaged in excessive trading or market timing.

To determine the extent to which certain transactions are motivated by short-term trading or market timing considerations and therefore may be subject to the policy of restricting certain transactions, the SICAV considers various criteria, including the Intermediary's assumption to involve certain volumes and frequencies, market norms, historical patterns and the intermediary' s asset levels.

Late Trading

We take measures to ensure that any request to buy, switch or redeem shares that arrives after the cut-off time for a given NAV will not be processed at that NAV.

Privacy of Personal Information

In accordance with the Data Protection Law, the SICAV, acting as data controller, hereby informs you (in case of a legal person, informs the shareholder's contact person and/or beneficial owner) that certain personal data ("Personal Data") provided to the SICAV or its delegates may be collected, recorded, stored, adapted, transferred or otherwise processed for the purposes set out below.

Personal Data includes (i) the name, address (postal and/or e-mail), bank details, invested amount and holdings of a shareholder; (ii) for corporate shareholders: the name and address (postal and/or e-mail) of the shareholders' contact persons, signatories, and the beneficial owners; and (iii) any other personal data the processing of which is required in order to comply with regulatory requirements, including tax law and foreign laws

Personal Data supplied by you is processed in order to enter into and execute transactions in Shares of the SICAV and for the legitimate interests of the SICAV. In particular, legitimate interests include (a) complying with the SICAV's accountability, regulatory and legal obligations; as well as in respect of the provision of evidence of a transaction or any commercial communication; (b) exercising the business of the SICAV in accordance with reasonable market standards and (c) the processing of Personal Data for the purpose of: (i) maintaining the register of shareholders; (ii) processing transactions in Shares and the payment of dividends; (iii) maintaining controls in respect of late trading and market timing practices; (iv) complying with applicable anti-money laundering rules; (v) marketing and client-related services; (vi) fee administration; and (vii) tax identification under the EU Savings Directive, OECD Common Reporting Standard (the "CRS") and FATCA.

The SICAV may, subject to applicable law and regulation, delegate the processing of Personal Data, to other data recipients such as, inter alia, the Management Company, the Investment Managers, the Sub-Investment Managers, the Administrator, the Registrar and Transfer Agent, the Depositary and Paying Agent, the auditor and the legal advisors of the SICAV and their service providers and delegates (the "Recipients").

The Recipients may, under their own responsibility, disclose Personal Data to their agents and/or delegates (including the providers mentioned under the "Section Information for Investors in Certain Countries"), for the sole purposes of assisting the Recipients to provide services to the SICAV and/or to fulfil their own legal obligations. Recipients or their agents or delegates may, process Personal Data as data processors (when processing upon instruction of the SICAV), or as data controllers (when processing for their own purposes or to fulfil their own legal obligations). Personal Data may also be transferred to third parties such as governmental or regulatory agencies, including tax authorities, in accordance with applicable law and regulation. In particular, Personal Data may be disclosed to the Luxembourg tax authorities, which in turn may, acting as data controller, disclose the same to foreign tax authorities.

Data processors may include any entity belonging to the Crédit Agricole or Société Générale group of companies (including outside the EU) for the purposes of performing operational support tasks in relation to transactions in the Shares, fulfilling anti-money laundering and counter-terrorist financing obligations, avoiding investment fraud and for compliance with the obligations of CRS.

In accordance with the conditions laid down by the Data Protection Law, you have the right to:

- request access to their Personal Data
- request the correction of their Personal Data where it is inaccurate or incomplete
- object to the processing of their Personal Data
- request erasure of their Personal Data
- request for restriction of the use of their Personal Data and
- request for Personal Data portability)

You may exercise the above rights by writing to the SICAV at the following address: 5, Allée Scheffer L-2520 Luxembourg, Grand Duchy of Luxembourg.

You also have the right to lodge a complaint with the National Commission for Data Protection (the "CNPD") at the following address: 1, Avenue du Rock'n'Roll, L-4361 Esch-sur-Alzette, Grand Duchy of Luxembourg, or with any competent data protection supervisory authority.

You may, at your discretion, refuse to communicate your Personal Data to the SICAV. In this event however, the SICAV may reject the request for subscription for Shares and block an account for further transactions. Personal Data shall not be retained for periods longer than those required for the purpose of its processing subject to any limitation periods imposed by applicable law.

Information for Investors in Certain Countries

- **Contact in Asia**

In order to facilitate communication in the Asian time zones, the Registrar and Transfer Agent offers you the option to contact CACEIS Hong Kong Trust Company Limited for the transmission of any application to buy, switch or redeem Shares and any related customer identification documentation or Personal Data.

- **Italy**

Under the multi-year investment plan disributed in Italy, if an investment plan is terminated before the agreed final date, you may end up paying more in purchase fees than if you had bought the same shares outside of the plan.

Financial year 1 July to 30 June

Capital Sum of the net assets of all of the sub-funds.

Minimum capital (under Luxembourg law) EUR1,250,000 or equivalent in any other currency**.**

Par value of shares None

Share capital and reporting currency EUR

Structure and Governing Law

The SICAV functions as an "umbrella fund" under which the sub- funds are created and operate. The assets and liabilities of each sub-fund are segregated from those of other sub-funds (meaning that third-party creditors have recourse only to the assets of the sub-fund concerned. The SICAV qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under Part 1 of the 2010 law and some of its sub-funds qualify as MMFs under the MMF Regulation. The SICAV is registered on the official list of collective investment undertakings maintained by the CSSF.

Any legal disputes involving the SICAV, the depositary or any shareholder will be subject to the jurisdiction of the competent Luxembourg court, although the SICAV or the depositary may submit to a competent court of another jurisdiction when that jurisdiction's regulations require it. The ability for a shareholder to bring a claim against the SICAV expires five years after the event on which the claim would be based (30 years in the case of claims concerning entitlement to the proceeds of a liquidation).

Board of Directors of the SICAV

Mr. Christophe Lemarié, Chairman
Deputy Head of Retail Marketing
Amundi Ireland Ltd
1, George's Quay Plaza
Dublin 2, Ireland

Ms. Elodie Laugel
Global Head of Institutional Marketing
Amundi Asset Management
90, boulevard Pasteur
75015 Paris, France

Mr. Christian Pellis
Global Head of Distribution
Amundi Asset Management
90, boulevard Pasteur
75015 Paris, France

The board is responsible for the overall management and administration of the SICAV and has broad powers to act on its behalf, including:

- appointing and supervising the Management Company
- setting investment policy and approving the appointment of any investment manager or sub-manager
- making all determinations regarding the launch, modification, merger or discontinuation of sub-funds and share classes including such matters as timing, pricing, fees, dividend policy and payment and amount of dividends, liquidation of the SICAV, and other conditions
- determining whether to list a sub-fund's shares on any stock exchange
- determining whether and where to publish sub-fund NAVs and dividend notices
- determining when and in what manner the SICAV will exercise any of the rights reserved in this prospectus or by statute and making any associated shareholder communications
- ensuring that the Management Company and the depositary are adequately capitalised and that their appointment is consistent with the 2010 Law and any applicable contracts of the SICAV
- determining the availability of any share class to any investor or distributor or in any jurisdiction
- approving any multi-year investment plans, making any changes to the terms, fees, general structure, and extent of shareholder choices it may desire

The board is responsible for the information in this prospectus and has taken all reasonable care to ensure that it is materially accurate and complete.

Directors serve until their term ends, they resign, or they are revoked, in accordance with the articles of incorporation. Any additional directors will be appointed in accordance with the articles of incorporation and Luxembourg law. Directors may receive compensation for serving on the board. Any such compensation will be disclosed as required by applicable law or regulation.

Conducting Officers

Amundi Luxembourg S.A.

Service Providers Engaged by the SICAV

Depositary

CACEIS Bank, Luxembourg Branch

5, allée Scheffer

2520 Luxembourg

Grand-Duchy of Luxembourg

caceis.com

The depositary holds all of the SICAV's assets, including its cash and securities, either directly or through other financial institutions such as correspondent banks, subsidiaries or affiliates of the depositary, as described in the depositary agreement.

The depositary is entrusted with the safe-keeping and/or, as the cas may be , recordkeeping of the SICAV's assets on behalf of and for the exclusive interest of the shareholders. All assets that can be held in custody are registered in the depositary's books in segregated accounts, opened in the name of the SICAV, in respect of each sub-fund. The depositary must verify the ownership of such assets by the SICAV in respect of each sub-fund, and shall ensure that the SICAV' s cash flows are properly monitored.

In addition, the depositary is responsible for ensuring that:

- the sale, issue, repurchase, cancellation and valuation of shares are done according to law and the articles of incorporation
- all income produced by the SICAV is properly allocated (as specified in the articles)
- all monies due to the SICAV arrive within the customary market period
- the SICAV carries out the board's instructions (unless they conflict with the law or the articles of incorporation)
- the NAV of the shares is calculated in accordance with the law and the articles of incorporation

The depositary must use reasonable care in exercising its functions and is liable for the loss or theft of any financial instrument held in custody. In such case, the depositary must return a financial instrument of identical type or the corresponding amount to the SICAV without undue delay unless it proves that the loss is the result of an external event beyond its reasonable control.In compliance with Luxembourg law, the depositary is liable to the SICAV and its shareholders for any loss incurred by the depositary or resulting from its failure to execute, or from its wrongful execution of, its duties. It may entrust assets to third party banks, financial institutions or clearinghouses but this will not affect its liability. The list of such delegates or the potential conflict of interest that may arise from such delegation is available on the website of the depositary caceis.com section "veille reglementaire". Such list may be updated from time to time. A complete list of all correspondents/third party custodians may be obtained, free of charge and upon request, from the Depositary. Up-to-date information regarding the identity of the Depositary, the description of its duties and of conflicts of interest that may arise, the safekeeping functions delegated by the Depositary and any conflicts of interest that may arise from such a delegation are also made available to investors on the website of the Depositary, as mentioned above, and upon request. There are many situations in which a conflict of interest may arise, notably when the Depositary delegates its safekeeping functions or when the Depositary also performs other tasks on behalf of the UCITS, such as administrative agency and registrar agency services. These situations and the conflicts of interest thereto related have been identified by the Depositary. In order to protect the UCITS' and its shareholders' interests and comply with applicable regulations, a policy and procedures designed to prevent situations of conflicts of interest and monitor them when they arise have been set in place within the Depositary, aiming namely at:

- identifying and analysing potential situations of conflicts of interest
- recording, managing and monitoring the conflict of interest situations either in:

a) relying on the permanent measures in place to address conflicts of interest such as maintaining separate legal entities, segregation of duties, separation of reporting lines, insider lists for staff members; or

b) implementing a case-by-case management to (i) take the appropriate preventive measures such as drawing up a new watch list, implementing a new Chinese wall, making sure that operations are carried out at arm's length and/or informing the concerned shareholders of the UCITS, or (ii) refuse to carry out the activity giving rise to the conflict of interest.

The Depositary has established a functional, hierarchical and/or contractual separation between the performance of its UCITS depositary functions and the performance of other tasks on behalf of the UCITS, notably, administrative agency and registrar agency services.

Where the law of a third country requires that certain financial instruments be held in custody by a local entity and there are no local entities that satisfy the delegation requirement, the depositary may delegate to a local entity, provided that the investors have been duly informed and that instructions to delegate to the relevant local entity have been given by or for the SICAV.

CACEIS and Amundi are members of the Crédit Agricole Group.

Auditor

PricewaterhouseCoopers, Société Cooperative

2, rue Gerhard Mercator

B.P. 1443

1014 Luxembourg

Grand-Duchy of Luxembourg

The auditor, a "reviseur d'entreprise" appointed at the annual general meeting of shareholders, provides independent review of the financial statements of the SICAV and all sub-funds once a year. The auditor also verifies all performance fee calculations.

Local Agents

The SICAV may engage local agents in certain countries or markets, whose duties include making available applicable documents

(such as the prospectus, KIIDs and shareholder reports), in the local language if required. In some countries, use of an agent is mandatory, and the agent may not merely facilitate transactions but may hold shares in its own name on behalf of investors. For information on the local agents in various countries, go to **amundi.com** or **amundi-funds.com.**

Shareholder Meetings and Voting

The annual general meeting shall be held, in accordance with the Law of 10 August 1915.in the Grand-Duchy of Luxembourg within six months of the Company's financial year as determined in the articles of incorporation. The annual general meeting may be held abroad if, in the absolute and final judgement of the Board, exceptional circumstances so require. Other shareholder meetings can be held at other places and times; if any are scheduled, notices will be distributed to you and will be made publicly available as required by law or regulation.

Resolutions concerning the interests of all shareholders generally will be taken in a general meeting. Those concerning the rights of the shareholders of a specific sub-fund, share class or share class category may be discussed in a meeting of those shareholders only.

The meeting notice will indicate any applicable quorum requirements as well. When no quorum is required, decisions will be taken if approved by a majority (either a two-thirds majority or a simple majority, as required by law) of those shares that actually vote on the matter, whether in person or by proxy.

Each share gets one vote in all matters brought before a general meeting of shareholders. Fractional shares do not have voting rights. Nominees determine the voting policy for all shares of which they are the owner of record. The same rules apply at any meetings of sub- funds, share classes or share class categories.

For information on admission and voting at any meeting, refer to the applicable meeting notice.

Expenses

The SICAV pays the following expenses out of shareholder assets:

Expenses included in the fees disclosed in "Sub-Fund Descriptions"

In the management and distribution fees

- fees of the Management Company and all other service providers, including distributors

In the administration fee

- fees of professional firms, such as the auditors and legal advisers
- government, regulatory, registration, local representatives and cross-border marketing expenses
- costs of providing information to shareholders, such as the costs of creating, translating, printing and distributing shareholder reports, prospectuses and KIIDs
- extraordinary expenses, such as any legal or other expertise needed to defend the interests of shareholders
- all other costs associated with operation and distribution, including expenses incurred by the Management Company, depositary and all service providers in the course of discharging their responsibilities to the SICAV

Expenses not included in the fees disclosed in "Sub-Fund Descriptions"

- taxes on assets and income
- standard brokerage and bank charges incurred on business
- transactions and securities trades
- any fees that the board agrees the SICAV should pay to independent board members for their service on the board (currently, no such fees are paid)
- any fees and costs incurred by the agents of investment managers and investment sub-managers centralising orders and supporting best execution; some of these agents may be affiliates of Amundi

All expenses that are paid from shareholder assets are reflected in NAV calculations, and the actual amounts paid are documented in the SICAV's annual reports.

Recurring expenses will be charged first against current income, then against realised capital gains, and lastly against capital.

Each sub-fund and/or class pays all costs it incurs directly and also pays its pro rata share (based on net asset value) of costs not attributable to a specific sub-fund or class. For each share class whose currency is different from the base currency of the sub-fund, all costs associated with maintaining the separate share class currency (such as currency hedging and foreign exchange costs) will be charged to that share class.

Best Execution

Each investment manager and sub-investment manager has adopted a best execution policy to implement all reasonable measures to ensure the best possible result for the SICAV, when executing orders. In determining what constitutes best execution, the investment manager and/or sub-investment manager will consider a range of different factors, such as price, liquidity, speed and cost, among others, depending on their relative importance based on the various types of orders or financial instrument. Transactions are principally executed via brokers that are selected and monitored on the basis of the criteria of the best execution policy. Counterparties that are affiliates of Amundi are also considered. To meet its best execution objective, the investment manager and/or sub-investment manager may choose to use agents (affiliates of Amundi or not) for its order transmission and execution activities.

The investment manager and sub-investment manager may use soft commission arrangements to enable them to obtain goods, services or other benefits (such as research) that are beneficial to the management of the SICAV, in the best interest of the shareholders. All transactions undertaken on a soft commission basis in respect of the SICAV will be subject to the fundamental rule of best execution and will also be disclosed in the shareholder reports.

Notices and Publications

PUBLICATION OF NOTICES

Notice of any material change to the SICAV or its sub-funds will be mailed to you at the address of record. If applicable, the prospectus will also be revised and made available. Information on changes affecting companies within the Amundi group will only be available at https://www.amundi.lu/retail/layout/set/body/Common-Content/Shareholder-information.

NAVs and notices of dividends for all existing share classes of all sub-funds are available from the registered office, and through other financial and media outlets as determined by the board. NAVs are also available at **fundsquare.com**.

Information on past performance appears in the KIID for each sub- fund, by share class, and in the shareholder reports. Audited annual reports are issued within four months of the end of the financial year. Unaudited semi-annual reports are issued within two months of the end of the period they cover. Accounts for the SICAV are expressed in EUR and sub-fund accounts are expressed in the base currency of each sub-fund.

COPIES OF DOCUMENTS

You can access various documents about the SICAV online at **amundi.com** at a local agent (if one exists in your country) or at the registered office, including:

- KIIDs
- shareholder reports (latest annual report and semi-annual report)
- notices to shareholders
- the prospectus
- the SICAV's policies on best execution, complaint handling, managing conflicts of interest, and the voting rights associated with portfolio securities
- the Management Company's remuneration policy
- each master fund's prospectus, articles of incorporation or management regulations, annual and semi-annual financial reports, key investor information documents and the agreement entered into between the SICAV and the master fund.

In respect of the MMF Sub-Funds, you can access the following documents (updated on a weekly basis):

- the maturity breakdown of the portfolio of each MMF Sub-Fund;
- the credit profile of each MMF Sub-Fund;
- details of the ten (10 largest holding in each MMF Sub-Fund, including the name, country, maturity and asset type, and the counterparty in case of repurchase and reverse repurchase agreements;
- the total value of the assets of each MMF Sub-Fund; and
- the net yield of each MMF Sub-Fund.

Also at the registered office, you can read or get copies of all of the above documents as well as other relevant documents, such as the articles of incorporation, and certain key agreements between the SICAV and the Management Company, investment managers and service providers.

Liquidation or Merger

LIQUIDATION

The board may decide to liquidate any sub-fund or share class if any of the following is true:

- the value of all assets of the sub-fund or share class falls below what the board views as the minimum for efficient operation
- the liquidation is justified by a significant change in economic or political situation affecting the investments of the sub-fund or share class
- the liquidation is part of a project of rationalisation (such as an overall adjustment of sub-fund offerings)

If none of these is true, then any liquidation of a sub-fund or share class requires the approval of the shareholders of the sub-fund or share class. Approval may be given by a simple majority of the shares present or represented at a validly held meeting (no quorum required).

Generally, shareholders of the relevant sub-fund or share class may continue to redeem or switch their shares, free of any redemption and switching fee up to the liquidation date. The prices at which these redemptions and switches are executed will reflect any costs relating to the liquidation. The board can suspend or refuse redemptions and switches if it believes it is in the best interests of shareholders.

Only the liquidation of the last remaining sub-fund will result in the liquidation of the SICAV. In such a case, once liquidation is decided upon, the SICAV and all sub-funds must cease issuing new shares except for the purpose of liquidation.

The SICAV may itself be dissolved at any time by a resolution of shareholders (for quorum and voting requirements, see the articles of incorporation). In addition, if it is determined that the SICAV's capital has fallen below two-thirds of minimum required capital, shareholders must be given the opportunity to vote on dissolution at a general meeting held within 40 days of the determination.

Dissolution will occur if approved by a majority of the shares present and represented at the meeting, or by 25% of the shares present and represented if the SICAV's capital is below 25% of the minimum (no quorum required).

Should the SICAV need to liquidate, one or more liquidators appointed by the shareholders meeting will liquidate the SICAV's assets in the best interest of shareholders and will distribute the net proceeds (after deduction of any costs relating to the liquidation) to shareholders in proportion to their holdings.

Amounts from any liquidations that are not claimed promptly by shareholders will be deposited in escrow with the Caisse de Consignation. Amounts still unclaimed after 30 years will be forfeited according to Luxembourg law.

MERGERS

Within the limits of the 2010 Law, any sub-fund may merge with any other sub-fund, wherever domiciled (whether the other sub-fund is within the SICAV or in a different UCITS). The board is authorised to approve any such mergers. If the merger involves a different UCITS, the board may also choose the effective date of the merger.

The SICAV may also merge with another UCITS as permitted by the 2010 law. The board is authorised to approve mergers of other UCITS into the SICAV and to set effective dates for such mergers. However, a merger of the SICAV into another UCITS must be approved by a majority of the shares present or represented at a shareholder meeting.

Shareholders whose investments are involved in any merger will receive at least one month's advance notice of the merger, during which they will be able to redeem or switch their shares free of any redemption and switching charges.

THE MANAGEMENT COMPANY

Operations and Business Structure

Management Company name
Amundi Luxembourg S.A.

Registration number B 57.255

Capital EUR 17,785,525

Other FCPs managed Amundi SIF, Capital Investment, Amundi S.F., MyNEXT, Amundi Total Return.

RESPONSIBILITIES

The Management Company is responsible for investment management, administrative services, marketing services and distribution services. The Management Company also serves as domiciliary agent, in which capacity it is responsible for the administrative work required by law and the articles of incorporation, and for keeping the books and records of the sub-funds and the SICAV. The Management Company is subject to Chapter 15 of the 2010 Law.

The Management Company has the option of delegating to third parties some or all of its responsibilities. For example, so long as it retains control and supervision, the Management Company can appoint one or more investment managers to handle the day-to-day management of sub-fund assets, or one or more advisors to provide investment information, recommendations and research concerning prospective and existing investments. The Management Company can also appoint various service providers, including those listed below, and can appoint distributors to market and distribute sub-fund shares in any jurisdiction where the shares are approved for sale.

FEES

The Management Company is entitled to receive a Management Company fee as indicated for each sub-fund in "Sub-Fund Descriptions". This fee is calculated based on each sub-fund's daily net assets and is paid quarterly in arrears. The Management Company pays any investment managers, service providers and distributors out of the Management Company fee. The Management Company may decide to waive some or all of its fee in order to reduce the impact on performance. These waivers may be applied to any sub-fund or share class, for any amount of time and to any extent, as determined by the Management Company.

AGREEMENTS WITH MANAGERS AND OTHER SERVICE PROVIDERS

The investment managers, sub Investment-managers, and all other service providers have agreements with the Management Company to serve for an indefinite period. An investment manager in material breach of its contract can be terminated immediately. Otherwise, investment managers and other service providers can resign or be replaced upon 90 days' notice.

REMUNERATION POLICY

The Management Company has designed and implemented a remuneration policy that is consistent with, and promotes, sound and effective risk management by having a business model that by its nature does not encourage excessive risk taking, such risk taking being inconsistent with the risk profile of the sub-funds. The Management Company has identified those of its staff members whose professional activity has a material impact on the risk profiles of the sub-funds, and will ensure that these staff members comply with the remuneration policy. The remuneration policy integrates governance, a pay structure that is balanced between fixed and variable components, and risk and long-term performance alignment rules. These alignment rules are designed to be consistent with the interests of the Management Company, the SICAV and the shareholders, with respect to such considerations as business strategy, objectives, values and interests, and include measures to avoid conflicts of interest. The Management Company ensures that the calculation of any performance-based remuneration is based on the applicable multi-year performance figures of the SICAV and that the actual payment of such remuneration is spread over the same period. The details of the current remuneration policy of the Management Company, such as a description of how remuneration and benefits are calculated and the identity of the persons responsible for awarding the remuneration and benefits, are available on the "Regulatory information" page of amundi.com, or you can request a free paper copy from the registered office of the Management Company.

SICAV Amundi Funds, a Luxembourg-domiciled SICAV.

shareholder reports The annual and semi-annual reports of the SICAV.

US person Any of the following:

– a US resident, a trust of which a US resident is a trustee, or an estate of which a US resident is an executor or administrator

– a partnership or corporation organized under US federal or state law

– an agency or branch of a foreign entity located in the US

– a non-discretionary or similar account (other than an estate or trust account) that is held by a dealer or other fiduciary who is one of the above, or for the benefit or account of one of the above

– a partnership or corporation organised or incorporated by one of the above under non-US laws primarily for investing in securities that are not registered under the 1933 Act, unless organised and owned by accredited investors who are not natural persons, estates or trusts

US tax resident Any of the following:

– a US citizen or resident, or the estate of such a person

– a partnership or corporation organized in the US or under US federal or state law

– a trust that is substantially controlled by any of the above and is substantially within the jurisdiction of a US court

WAL Weighted average life, which reflects the term left to run until the initial principal repayments on the security (without taking into account interest payments and reductions in the principle value).

WAM Weighted average maturity.which is defined as the asset-weighted average number of days to the next floating-rate reset date (rather than the final maturity), or the maturity date for fixed-rate instruments and floating-rate instruments that have passed their last reset date

we, us The SICAV, acting through the board or through any service providers described in this prospectus except for the auditor and any distributors.

you Any past, current or prospective shareholder, or an agent for the same.
